CLARIFICATION TO ALL INFRACON CLIENTS

During the one day client workshop held on 27.02.2017, it was found that few of the clients are of the belief that the data uploaded by Consulting Firms and Key Personnel on INFRACON is well authenticated.

In this context it is clarified that INFRACON Support does not monitor the contents of the data and the onus for its truthfulness / veracity purely lies with the Consulting Firms / Key Personnel as the case may be. The Clients are therefore requested to get the same verified as and when some absurdity comes in their notice and INFRACON Support may also be informed if the facts are found contrary to the uploaded information. INFRACON Support shall immediately **BLOCK** such misrepresenting ID upon hearing from the Client.

Also it would be appropriate to take duly signed Undertaking from the concerned Bidding Firm and Key Personnel for truthfulness of the credentials uploaded on INFRACON to check any possibility of misrepresentation.

A format for the same is being enclosed herewith for necessary reference.
