RAILHIGH

MONETARY BENEFITS

1.USERS WILL ACCESS THE SERVER AND clickHITS WILL GENERATE Money.

2.Advertisements and promotions OF OTHER SITES WILL GENERATE REVENUE.

USES

-clubbing the scattered data in one platform.

-the user can get the details of all the nearby resources i.e. not just railways but also AT
banks, restaurants, police stations, hospitals etc.

-the offline alarm which is non-dependent on the network services will alert the user a
the approaching train of the passenger as well as the alert the user for incoming depar
station(for FUTURE SCOPE).

-augmented reality using 360 view and navigation of railway station inside.
