2	Surface defects detection and roughness measurement using Network Survey Vehicle (NSV Survey)	Km	1.877		
3	Pavement strength measurement using Falling Weight Deflectometer (FWD) Test	Km	1.877		
4	Non-Destruction test as per schedule K (Rebound hammer and ultrasonic pulse Velocity test)	Nos	2 (New Gomati and Muhuri Bridge)		Tests for Bridges
6	Bridge inspection using Mobile Bridge Inspection Unit (MBIU test) / requisite Non-Destructive Testing of Bridges	Nos	2		Tests for Bridges
7	Retro-reflectivity Test for Road Markings and Road Signs	Km	1.877		
8	Load Testing and requisite Structural Assessment of existing Gomati and Muhuri Bridges	Nos	2 (Existing Gomati Bridge length =120.3 Muhuri Bridge Length= 76.8)		Structural condition, load-carrying capacity and suitability for continued vehicular traffic

2. Date of publishing date - 13.10.2026 at 05:00 PM.
3. Last date of submission of quotation on 23.10.2026 within 05:00 PM.
4. Work has to be executed on work-order basis.

5. The bidder shall arrange and provide all required technically skilled manpower, testing personnel, testing equipment/instruments, transportation facilities, local accommodation and other necessary resources required for carrying out the specified tests and structural assessment under the scope of work.
6. The bidders shall be empanelled NSV consultants in accordance with MoRTH Office Memorandum No. RW/NH-29020/03/2020-S&R(P&B)-RSEC dated 01 July 2021, as amended from time to time, for the collection of road inventory and pavement condition data of National Highways and uploading the same onto the Road Asset Management System (RAMS).
7. The Testing Agency shall carry out the required Tests on Completion under Schedule-K. The scope of work shall also include load testing and the requisite structural assessment of the existing Gomati and Muhuri Bridges to assess their structural condition, load-carrying capacity and suitability for continued vehicular traffic. The Testing Agency shall submit a comprehensive report covering all tests and structural assessments/recommendations carried out and shall coordinate with the Authority's Engineer and the officials of PMU-Udaipur, NHIDCL, for conducting the required tests and assessments/recommendation.
8. The Testing Agency shall complete all the specified tests and inspections within 15 days from the date of issuance of the work order. The consolidated report covering all the specified tests, including the structural assessment/recommendation of the existing Gomati and Muhuri Bridges and test mentioned in table above, shall be submitted to NHIDCL within one month from the date of issuance of the work order or within 15 days from the date of completion of all the specified tests and inspections, whichever is earlier. The report shall include the test results, findings, identified deficiencies, assessment of the load-carrying capacity and suitability of the existing bridges for continued vehicular traffic, along with recommendations, wherever required.
9. The Testing Agency shall be responsible for maintaining the confidentiality and security of all data, records, drawings, photographs and reports collected during the assignment. No information or report related to the work shall be shared with any third party or published without the prior written approval of NHIDCL. The Agency shall also take all necessary safety precautions during inspection and testing activities and comply with the applicable safety and traffic management requirements.
10. The Agency shall carry out the NSV survey and FWD testing, as applicable, using calibrated equipment and shall submit the test results and analysis reports to NHIDCL in the prescribed format.
11. The Agency shall submit all raw and processed test data, geo-tagged photographs, videos and other relevant digital records generated during the testing and inspection of the bridges to NHIDCL in the prescribed or approved format. All such data and records shall remain the property of NHIDCL and shall not be shared with any third party or used for any other purpose without the prior written approval of NHIDCL.
12. If any test is found to be incomplete, inaccurate, unreliable or not conducted in accordance with the approved methodology or applicable standards, the Authority may direct the Testing Agency to repeat or rectify the same at no additional cost. The decision of the Authority regarding the adequacy and acceptance of the test results and reports shall be final and binding on the Testing Agency.
13. The bidder shall submit, along with the quotation, its agency profile, PAN and GST registration details, proof of applicable empanelment, details of relevant experience, and a signed copy of the quotation. The Authority may seek supporting documents or clarifications from the bidder.

14. The quotation shall remain valid for a period of 90 days from the last date of submission. Any conditional quotation or quotation containing alterations not duly authenticated by the bidder may be rejected.

15. The work shall be carried out in accordance with Schedule-K of the applicable EPC Contract Agreement, relevant MoRTH/IRC specifications and standards, and instructions issued by the Authority/Authority's Engineer. The Agency shall coordinate the testing programme in advance to minimise disruption to traffic and shall obtain necessary permissions before conducting field tests.

16. No advance payment shall be payable. Payment shall be made on completion of the all assigned work including submission and acceptance of the required reports, against submission of a valid invoice and other documents required by NHIDCL, subject to applicable rules and deductions.

17. The bidder shall disclose any conflict of interest, if applicable, and shall not assign or subcontract the work without prior written approval of the Authority.

18. Interested bidders may submit their quotations in sealed envelopes at either of the following offices:
