CLIENT:

The Chief Employer's
 Representative
 Project BEACON
 Border Roads Organization
 C/O 56 APO

PROJECT:

Consultancy Services for Detailed Feasibility Study and Framing up of
 Phasewise proposal (DPR) for construction of two tunnels at Z-Morh and at
 Zojila for all weather connectivity from Srinagar to Leh in Jammu & Kashmir
 State

ZOJILA TUNNEL

TITLE:

Phase II: Detailed Project Report - Preliminary Tunnel Design
Volume VII: Cost Estimation
Addendum 1 – Details of Quantities (DoQ)

| Document No.: | 8482B_II-ZOT_rep-07-12-00-A1 | Rev.No.: | 00 |

| Item No. | Description of item | Quantity | Unit |
|--|---|------------|---------|
| BILL 1 - CIVIL ENGINEERING MAIN TUNNEL | | | |
| SCHEDULE - A DEWATERING ARRANGEMENT | | | |
| SCHEDULE - A1 Temporary Dewatering Arrangement Tunnel | | | |
| A101 | Care of water in max 3.0% drift for downward drives | 1,00 | lumpsum |
| SCHEDULE - A2 Permanent Dewatering Arrangement Tunnel | | | |
| A201 | Providing and laying of PVC pipe of following diameters as main collector pipe, connection pipes, cleaning access pipes etc., as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| A20101 | 150 mm internal diameter PVC pipe [Equation = (a*interger(b/c))] | 423,00 | meter |
| a | Mean distance between 150 mm pipe and 400 mm pipe in main tunnel cross section | 3,00 | meter |
| b | Distance bewteen manholes 400 mm pipe | 100,00 | meter |
| c | Mined tunnel length | 14.083,00 | meter |
| A20102 | 250 mm internal diameter PVC pipe [Equation = (a+b)*integer(d/c)] | 1.528,44 | meter |
| a | Distance between left side wall drainage and 400 mm pipe in main tunnel cross section | 3,43 | meter |
| b | Distance between right side wall drainage and 400 mm pipe in main tunnel cross section | 7,41 | meter |
| c | Distance between manholes 400 mm pipe | 100,00 | meter |
| d | Mined tunnel length | 14.083,00 | meter |
| A20103 | 400 mm internal diameter PVC pipe [Equation = a] | 14.083,00 | meter |
| a | Mined tunnel length | 14.083,00 | meter |
| A202 | Providing and laying of perforated PVC pipe of following diameters as drainage pipes, as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| A20201 | 150 mm internal diameter PVC pipe [Equation = a] | 14.083,00 | meter |
| a | Mined tunnel length | 14.083,00 | meter |
| A20202 | 250 mm internal diameter PVC pipe [Equation = 2*a] | 28.166,00 | meter |
| a | Mined tunnel length | 14.083,00 | meter |
| A203 | Manufacture, supply, and placing of pre-cast concrete slot channel elements as per approved drawings for carriageway drainage [Equation = 2*a] | 28.166,00 | meter |
| a | Mined tunnel length | 14.083,00 | meter |
| A204 | Providing and installing of dimpled sheets in the tunnel between primary and permanent lining as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = a*b*c] | 41.140,66 | sqm |
| a | Tunnel perimeter from main tunnel cross section | 29,21 | meter |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Estimated tunnel length dimpled sheets requirement | 0,10 | %/100 |
| A205 | Providing, laying and fixing of Protective Felt (geotextile) with a minimum weight of 500 g/m2 for protection of the waterproofing membrane & drainage on the finished outer lining surface, including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. [Equation = a*b+(c-a)*d*e] | 413.689,86 | sqm |

| Item No. | Description of item | Quantity | Unit |
|----------|--|------------|-------|
| a | Tunnel perimeter from main tunnel cross section | 29,21 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Tunnel perimeter from main tunnel cross section lay by | 31,75 | sqm |
| d | Lay-by length | 50,00 | meter |
| e | Number of lay-bys | 18,00 | pcs |
| A206 | Providing, placing, welding of 2 mm thick PVC or ECB Water Proofing Membrane including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. [Equation = $a*b+(c-a)*d*e$] | 413.689,86 | sqm |
| a | Tunnel perimeter from main tunnel cross section | 29,21 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Tunnel perimeter from main tunnel cross section lay by | 31,75 | sqm |
| d | Lay-by length | 50,00 | meter |
| e | Number of lay-bys | 18,00 | pcs |
| A207 | PVC Water stop serrated with central bulb (225mm wide, 8-11mm thick) [Equation = $2*a$] | 28.166,00 | meter |
| a | Mined tunnel length | 14.083,00 | meter |
| A208 | Manufacture, supply, and placing of inspection and cleaning chambers of PP or PE-HD including bell mouth, manhole cover, the cost of all materials, labour, equipment, etc. required for the completion of job as per approved detailed drawings & Technical Specifications or as directed by Employer's Representative. | | |
| A20801 | Cleaning and Inspection chamber for DN150 [Equation = $\text{integer}(c/a)*b$] | 141,00 | pcs |
| a | Distance between manholes | 100,00 | meter |
| b | Number of man holes per cross section | 1,00 | pcs |
| c | Mined tunnel length | 14.083,00 | meter |
| A20802 | Cleaning and Inspection chamber for DN250 [Equation = $\text{integer}(c/a)*b$] | 282,00 | pcs |
| a | Distance between manholes | 100,00 | meter |
| b | Number of man holes per cross section | 2,00 | pcs |
| c | Mined tunnel length | 14.083,00 | meter |
| A20803 | Cleaning and Inspection chamber for DN400 [Equation = $\text{integer}(c/a)*b$] | 141,00 | pcs |
| a | Distance between manholes | 100,00 | meter |
| b | Number of man holes per cross section | 1,00 | pcs |
| c | Mined tunnel length | 14.083,00 | meter |
| A209 | Fire main [Equation = $a+b+c+d$] | 14.200,00 | meter |
| a | Mined tunnel length | 14.083,00 | meter |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Length of cut & cover tunnel east | 30,00 | meter |
| d | Estimated pipe length portal area | 50,00 | meter |
| A210 | Fire hydrant [Equation = a] | 132,00 | pcs |
| a | Number of hydrant niches | 132,00 | pcs |

| Item No. | Description of item | Quantity | Unit |
|--|--|------------|-------|
| SCHEDULE - B UNDERGROUND EXCAVATION | | | |
| SCHEDULE - B1 Excavation | | | |
| B101 | Underground excavation for tunnel in Support Category dominating the Face Area. Including all type of niches and lay-by including drilling, blasting, or other means of excavation, including widening of top heading footings, provision of surface drainage, construction ventilation, lighting arrangement during construction, temporary backfilling for traffic in tunnel, removal of the same and disposal of excavated material to muck disposal area with all lifts as per approved drawings & Technical Specifications. The quantities of excavation are determined to the design lines of excavation as per Technical Specifications. Overexcavation to the overexcavation line defined by the Technical Specifications is compensated with the unit rates. | | |
| B10101 | Excavation in Support Category A; top heading, bench, invert | | |
| B1010101 | Top Heading [Equation = $a*b*c$] | 154.664,64 | cum |
| a | Area of top heading excavation in cross section | 56,16 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| B1010102 | Bench [Equation = $a*b*c$] | 165.350,16 | cum |
| a | Area of bench excavation in cross section | 60,04 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| B10102 | Excavation in Support Category B; top heading, bench, invert | | |
| B1010201 | Top Heading [Equation = $a*b*c$] | 118.752,48 | cum |
| a | Area of top heading excavation in cross section | 43,12 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| B1010202 | Bench [Equation = $a*b*c$] | 166.809,78 | cum |
| a | Area of bench excavation in cross section | 60,57 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| B10103 | Excavation in Support Category C; top heading, bench, invert | | |
| B1010301 | Top Heading [Equation = $a*b*c$] | 88.831,38 | cum |
| a | Area of top heading excavation in cross section | 43,48 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| B1010302 | Bench [Equation = $a*b*c$] | 124.829,74 | cum |
| a | Area of bench excavation in cross section | 61,10 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| B10104 | Excavation in Support Category D; top heading, bench, invert | | |

| Item No. | Description of item | Quantity | Unit |
|----------|---|------------|-------|
| B1010401 | Top Heading [Equation = $a*b*c$] | 164.818,16 | cum |
| a | Area of top heading excavation in cross section | 61,00 | sqm |
| b | Mined tunnel length | 14.083,00 | meter |
| c | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| B1010402 | Bench & Invert [Equation = $(a+b)*c*d$] | 217.884,20 | cum |
| a | Area of bench excavation in cross section | 58,38 | sqm |
| b | Area of invert excavation in cross section | 22,26 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| B10105 | Excavation in Support Category E; top heading, bench, invert | | |
| B1010501 | Top heading & temporary invert [Equation = $(a+b)*c*d$] | 181.941,20 | cum |
| a | Area of top heading excavation in cross section | 61,82 | sqm |
| b | Area of temporary invert excavation in cross section | 29,56 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| B1010502 | Bench & Invert [Equation = $(a+b)*c*d$] | 104.051,73 | cum |
| a | Area of bench excavation in cross section | 29,28 | sqm |
| b | Area of invert excavation in cross section | 22,98 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| B10106 | Excavation in Support Category F; top heading, bench, invert | | |
| B1010601 | Top heading & temporary invert [Equation = $(a+b)*c*d$] | 112.478,10 | cum |
| a | Area of top heading excavation in cross section | 62,80 | sqm |
| b | Area of temporary invert excavation in cross section | 30,32 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| B1010602 | Bench & Invert [Equation = $(a+b)*c*d$] | 63.607,14 | cum |
| a | Area of bench excavation in cross section | 28,98 | sqm |
| b | Area of invert excavation in cross section | 23,68 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| B10107 | Excavation in Support Category G; top heading, bench, invert | | |
| B1010701 | Top heading & temporary invert [Equation = $(a+b)*c*d$] | 51.690,91 | cum |
| a | Area of top heading excavation in cross section | 62,80 | sqm |
| b | Area of temporary invert excavation in cross section | 30,32 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| B1010702 | Bench & Invert [Equation = $(a+b)*c*d$] | 29.231,57 | cum |

| Item No. | Description of item | Quantity | Unit |
|--|---|---------------|--------|
| a | Area of bench excavation in cross section | 28,98 | sqm |
| b | Area of invert excavation in cross section | 23,68 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| B10108 | Excavation in Support Category H; top heading, bench, invert | | |
| B1010801 | Top heading & temporary invert [Equation = (a+b)*c*d] | 7.457,12 | cum |
| a | Area of top heading excavation in cross section | 67,70 | sqm |
| b | Area of temporary invert excavation in cross section | 30,42 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| B1010802 | Bench & Invert [Equation = (a+b)*c*d] | 4.193,68 | cum |
| a | Area of bench excavation in cross section | 31,65 | sqm |
| b | Area of invert excavation in cross section | 23,53 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| B102 | Mucking of geological overbreak accepted by Employer's Representative as per Technical Specifications [Equation = a] | 8.500,00 | cum |
| a | Estimated geological overbreak | 8.500,00 | cum |
| B103 | Additional underground excavation as directed by Employer's Representative without rock mass classification. [Equation = a] | 1.250,00 | cum |
| a | Predicted additional underground excavation | 1.250,00 | cum |
| B104 | Additional payment for extra transportation of excavation material to the muck deposit area as per approved drawings & Technical Specifications. [Equation = a*b] | 16.194.003,96 | cum*km |
| a | Predicted volume of excavation material [Equation = sum(Item B101)*0,75] | 1.295.520,32 | cum |
| b | Predicted mean distance to additional deposit area | 12,50 | km |
| B105 | Re-profiling of tunnel due to deformations [Equation = a] | 4.850,00 | cum |
| a | Predicted volume of re-profiling | 4.850,00 | cum |
| B106 | Temporary suspension of D&B excavation [Equation = a*b*c] | 151,20 | wd |
| a | Estimated construction time | 2.520,00 | wd |
| b | Predicted suspension in percentage of construction time and face | 0,01 | %/100 |
| c | Number of working faces | 6,00 | pcs |
| SCHEDULE - B2 Drilling and Grouting | | | |
| B201 | Drilling of drainage drilling in the tunnel perimeter and face, diameter 50 mm, length 3 m to 8 m [Equation = a*b] | 19.250,00 | meter |
| a | Estimated number of drainage drillings | 3.500,00 | pcs |
| b | Average length of drainage drilling [Equation = (3+8)/2] | 5,50 | meter |
| B202 | Drilling of exploratory drilling without core recovery, diameter 50 mm, length up to 20 m [Equation = a] | 30,00 | pcs |
| a | Estimated number of exploratory drillings | 30,00 | pcs |

| Item No. | Description of item | Quantity | Unit |
|--|---|-----------|-----------|
| B203 | Drilling of exploratory drilling with core recovery, diameter 76 mm | | |
| B20301 | Drilling 0-10 m [Equation = a] | 25,00 | pcs |
| a | Number of estimated exploratory drillings | 25,00 | pcs |
| B20302 | Drilling 10-20 m [Equation = a] | 25,00 | pcs |
| a | Number of estimated exploratory drillings | 25,00 | pcs |
| B20303 | Drilling 20-30 m [Equation = a] | 25,00 | pcs |
| a | Number of estimated exploratory drillings | 25,00 | pcs |
| B204 | Strata grouting as defined by the approved drawings the Technical Specifications or directed by the Employer's Representative [Equation = a] | 2.600,00 | cum |
| a | Estimated volume to be strata grouted | 2.600,00 | cum |
| SCHEDULE - C PRIMARY SUPPORT MEASURES | | | |
| SCHEDULE - C1 Bolts & Anchors | | | |
| C101 | Supply, drilling and installation of frictional rock bolts (Swellex or similar) of the specified length, $F_y \geq 150$ KN (tunnel support) as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| C10101 | Length 4 m [Equation = $\text{integer}((a+b)*g*c+(d+e)*g*f)$] | 13.881,00 | pcs |
| a | Number of bolts in Support Category A in top heading per excavation meter | 1,50 | pcs/meter |
| b | Number of bolts in Support Category A in bench per excavation meter | 1,14 | pcs/meter |
| c | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| d | Number of bolts in Support Category B in top heading per excavation meter | 1,20 | pcs/meter |
| e | Number of bolts in Support Category B in bench heading per excavation meter | 1,20 | pcs/meter |
| f | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| g | Mined tunnel length | 14.083,00 | meter |
| C10102 | Length 6 m [Equation = $\text{integer}(a*b*c)$] | 4.958,00 | pcs |
| a | Number of bolts in Support Category B in top heading per excavation meter | 1,800 | pcs/meter |
| b | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| c | Mined tunnel length | 14.083,00 | meter |
| C102 | Supply, drilling, installation and grouting of grouted rock bolts (SN type) of the specified length, $F_y \geq 200$ KN (tunnel perimeter & face) as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| C10201 | Length 6 m [Equation = $\text{integer}((a+b)*f*c+d*f*e)$] | 26.267,00 | pcs |
| a | Number of bolts in Support Category C in top heading per excavation meter | 5,43 | pcs/meter |
| b | Number of bolts in Support Category C in bench per excavation meter | 1,70 | pcs/meter |
| c | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| d | Number of bolts in Support Category D in top heading per excavation meter | 4,33 | pcs/meter |
| e | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |

| Item No. | Description of item | Quantity | Unit |
|----------|--|--------------|-------------|
| f | Mined tunnel length | 14.083,00 | meter |
| C10202 | Length 9 m [Equation = integer((a+b)*m*c+(d+e)*m*f+(g+h)*m*i+(j*k)*m*l)] | 61.510,00 | pcs |
| a | Number of bolts in Support Category D in top heading per excavation meter | 2,00 | pcs/meter |
| b | Number of bolts in Support Category D in bench per excavation meter | 2,00 | pcs/meter |
| c | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| d | Number of bolts in Support Category E in top heading per excavation meter | 10,00 | pcs/meter |
| e | Number of bolts in Support Category E in bench per excavation meter | 4,00 | pcs/meter |
| f | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| g | Number of bolts in Support Category F in top heading per excavation meter | 9,20 | pcs/meter |
| h | Number of bolts in Support Category F in bench per excavation meter | 4,00 | pcs/meter |
| i | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| j | Number of bolts in Support Category G in top heading per excavation meter | 8,40 | pcs/meter |
| k | Number of bolts in Support Category G in bench per excavation meter | 4,00 | pcs/meter |
| l | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| m | Mined tunnel length | 14.083,00 | meter |
| C103 | Supply, drilling, installation and grouting of self-drilling bolts of the specified length, $F_y \geq 200$ KN (tunnel perimeter & face) as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| C10301 | Length 9 m [Equation = integer(a*b*d*c)] | 1.520,00 | pcs |
| a | Number of bolts in Support Category H in top heading per excavation meter | 4,00 | pcs/meter |
| b | Number of bolts in Support Category H in bench per excavation meter | 5,00 | pcs/meter |
| c | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| d | Mined tunnel length | 14.083,00 | meter |
| C104 | Supply, drilling, installation and grouting of forepoling as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| C10401 | Grouted rock bolts (SN type) with a length of 6 m, $F_y \geq 200$ KN [Equation = integer(a*b+c*d+e*f+g*h+i*j)*k] | 1.505.105,00 | meter |
| a | Total length of bolts in Support Category C per excavation meter | 140,58 | meter/meter |
| b | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| c | Total length of bolts in Support Category D per excavation meter | 163,98 | meter/meter |
| d | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| e | Total length of bolts in Support Category E per excavation meter | 206,40 | meter/meter |
| f | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| g | Total length of bolts in Support Category F per excavation meter | 206,40 | meter/meter |
| h | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| i | Total length of bolts in Support Category G per excavation meter | 206,40 | meter/meter |
| j | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |

| Item No. | Description of item | Quantity | Unit |
|---|--|-----------|-------------|
| k | Mined tunnel length | 14.083,00 | meter |
| C10402 | Steel Pipe umbrella with a diameter of 114 mm, wall thickness of 6.5 mm and a length of 14 m [Equation = integer(a*c*b)] | 5.725,00 | meter |
| a | Total length of pipe umbrella in Support Category H per excavation meter | 75,32 | meter/meter |
| b | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| c | Mined tunnel length | 14.083,00 | meter |
| TOTAL OF SCHEDULE - C1 Bolts & Anchors | | | |
| SCHEDULE - C2 Shotcrete, Lattice Girder, Lining Stress Controllers & Wire Mesh | | | |
| C201 | Shotcreting of primary lining (tunnel, niches, caverns) with designed mix cement concrete SpC20/25(56)/II/J2/XC1/GK8 as per Technical Specifications & drawings or as directed by Employer's Representative in charge including all materials, labour, equipment, etc. required for complete job. The reinforcement is compensated separately. | | |
| C20101 | 50 mm thick shotcrete lining in tunnel [Equation = (a+b)*d*c] | 80.361,72 | sqm |
| a | Perimeter of shotcrete lining in Support Category A, top heading | 18,72 | meter |
| b | Perimeter of shotcrete lining in Support Category A, bench | 10,46 | sqm |
| c | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| d | Mined tunnel length | 14.083,00 | meter |
| C20102 | 100 mm thick shotcrete lining in tunnel [Equation = (a+b)*d*c] | 80.471,88 | sqm |
| a | Perimeter of shotcrete lining in Support Category B, top heading | 18,78 | meter |
| b | Perimeter of shotcrete lining in Support Category B, bench | 10,44 | meter |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| d | Mined tunnel length | 14.083,00 | meter |
| C20103 | 150 mm thick shotcrete lining in tunnel [Equation = (a+b)*d*c] | 59.861,07 | sqm |
| a | Perimeter of shotcrete lining in Support Category C, top heading | 18,86 | meter |
| b | Perimeter of shotcrete lining in Support Category C, bench | 10,44 | meter |
| c | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| d | Mined tunnel length | 14.083,00 | meter |
| C20104 | 200 mm thick shotcrete lining in tunnel [Equation = (a+b)*d*c] | 77.059,24 | sqm |
| a | Perimeter of shotcrete lining in Support Category D, top heading | 19,28 | meter |
| b | Perimeter of shotcrete lining in Support Category D, bench | 9,24 | meter |
| c | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| d | Mined tunnel length | 14.083,00 | meter |
| C20105 | 250 mm thick shotcrete lining in tunnel [Equation = (a+b)*d*c] | 56.903,91 | sqm |
| a | Perimeter of shotcrete lining in Support Category E, top heading | 19,34 | meter |
| b | Perimeter of shotcrete lining in Support Category E, bench | 9,24 | meter |
| c | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| d | Mined tunnel length | 14.083,00 | meter |
| C20106 | 300 mm thick shotcrete lining in tunnel [Equation = ((a+b)*c+(d+e)*f+(g+h)*i)*j] | 52.739,92 | sqm |

| Item No. | Description of item | Quantity | Unit |
|----------|---|-----------|-------|
| a | Perimeter of shotcrete lining in Support Category F, top heading | 19,42 | meter |
| b | Perimeter of shotcrete lining in Support Category F, bench | 9,22 | meter |
| c | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| d | Perimeter of shotcrete lining in Support Category G, top heading | 19,42 | meter |
| e | Perimeter of shotcrete lining in Support Category G, bench | 9,22 | meter |
| f | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| g | Perimeter of shotcrete lining in Support Category H, top heading | 20,46 | meter |
| h | Perimeter of shotcrete lining in Support Category H, bench | 9,12 | meter |
| i | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| j | Mined tunnel length | 14.083,00 | meter |
| C202 | Shotcreting of primary invert lining with designed mix cement concrete SpC20/25(56)/II/J2/XC1/GK8 as per Technical Specifications & drawings or as directed by Employer's Representative in charge including all materials, labour, equipment, etc. required for complete job. The reinforcement is compensated separately. | | |
| C20201 | 200 mm thick shotcrete lining in tunnel [Equation = $a \cdot e \cdot b + c \cdot e \cdot d$] | 65.900,83 | sqm |
| a | Perimeter of shotcrete lining in Support Category D, invert | 13,72 | meter |
| b | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| c | Perimeter of shotcrete lining in Support Category E, temporary invert | 14,48 | meter |
| d | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| e | Mined tunnel length | 14.083,00 | meter |
| C20202 | 250 mm thick shotcrete lining in tunnel [Equation = $a \cdot i \cdot b + c \cdot i \cdot d + e \cdot i \cdot f + g \cdot i \cdot h$] | 54.333,86 | sqm |
| a | Perimeter of shotcrete lining in Support Category E, invert | 13,80 | meter |
| b | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| c | Perimeter of shotcrete lining in Support Category F, temporary invert | 14,60 | meter |
| d | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| e | Perimeter of shotcrete lining in Support Category G, temporary invert | 14,60 | meter |
| f | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| g | Perimeter of shotcrete lining in Support Category H, temporary invert | 14,71 | meter |
| h | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| i | Mined tunnel length | 14.083,00 | meter |
| C20203 | 300 mm thick shotcrete lining in tunnel [Equation = $a \cdot g \cdot b + c \cdot g \cdot d + e \cdot g \cdot f$] | 25.564,15 | sqm |
| a | Perimeter of shotcrete lining in Support Category F, invert | 13,90 | meter |
| b | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| c | Perimeter of shotcrete lining in Support Category G, invert | 13,90 | meter |
| d | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| e | Perimeter of shotcrete lining in Support Category H, invert | 13,93 | meter |
| f | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| g | Mined tunnel length | 14.083,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|----------|--|-----------|-----------|
| C203 | Shotcreting with designed mix cement concrete SpC20/25(56)/II/J2/XC1/GK8 of face sealing and widening of top heading footing in tunnel, as defined in the Technical Specifications including all labour, materials, cost of pins, hooks, lead, lift, handling, wastage complete with contractor's own equipment for complete job . [Equation = a*c*b] | 11.742,00 | cum |
| a | Support Category H, area of elephant foot shotcreting | 1,20 | sqm |
| b | Support Category H, area of excavation face top heading | 67,70 | sqm |
| c | Support Category H, area of excavation face temporary invert | 30,42 | sqm |
| d | Support Category H, area of excavation face bench | 31,65 | sqm |
| e | Support Category H, area of excavation face invert | 23,53 | sqm |
| f | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| g | Mined tunnel length | 14.083,00 | meter |
| C204 | Steel fibre reinforcement if required [Equation = a*(b+c)*d*f*e*g] | 56,25 | tonne |
| a | Reinforcement rate | 0,002 | %/100 |
| b | Perimeter of shotcrete lining in Support Category A, top heading | 18,72 | meter |
| c | Perimeter of shotcrete lining in Support Category A, bench | 10,46 | meter |
| d | Thickness of shotcrete lining in Support Category A | 0,05 | meter |
| e | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| f | Mined tunnel length | 14.083,00 | meter |
| g | Unit weight of steel | 7,00 | tonne/cum |
| C205 | Supply and placing of 150 x 150 x 6 mm Q188 (3.01 kg/m ²) welded wire fabric of Fe 500 as reinforcement in primary lining as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include all labour, materials, cost of pins, hooks, lead, lift, handling, wastage complete with contractor's own equipment for complete job. [Equation = ((a+b)*c+(d+e)*f+(g+h+i)*j+(k+l+m+n)*o+(p+q+r+s)*t+(u+v+w+x)*y+(z+za+zb+zc)*zd)*ze/1000] | 2.690,77 | tonne |
| a | Support Category B, top heading | 58,41 | kg |
| b | Support Category B, bench | 32,47 | kg |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| d | Support Category C, top heading | 117,31 | kg |
| e | Support Category C, bench | 64,94 | kg |
| f | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| g | Support Category D, top heading | 119,92 | kg |
| h | Support Category D, bench | 57,47 | kg |
| i | Support Category D, invert | 85,34 | kg |
| j | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| k | Support Category E, top heading | 120,29 | kg |
| l | Support Category E, temporary invert | 90,07 | kg |
| m | Support Category E, bench | 57,47 | kg |
| n | Support Category E, invert | 85,84 | kg |

| Item No. | Description of item | Quantity | Unit |
|----------|--|-----------|-------|
| o | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| p | Support Category F, top heading | 120,79 | kg |
| q | Support Category F, temporary invert | 90,81 | kg |
| r | Support Category F, bench | 57,35 | kg |
| s | Support Category F, invert | 86,46 | kg |
| t | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| u | Support Category G, top heading | 120,79 | kg |
| v | Support Category G, temporary invert | 90,81 | kg |
| w | Support Category G, bench | 57,35 | kg |
| x | Support Category G, invert | 86,46 | kg |
| y | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| z | Support Category H, top heading | 127,26 | kg |
| za | Support Category H, temporary invert | 91,50 | kg |
| zb | Support Category H, bench | 56,73 | kg |
| zc | Support Category H, invert | 86,64 | kg |
| zd | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| ze | Mined tunnel length | 14.083,00 | meter |
| C206 | Supply, fabrication and erection of lattice girders and all accessories including all lead, lift, wastage, storing, drilling holes, fixing in phases etc. and installation of accessories for joining the lattice girder segments as per approved workshop drawings of contractor & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, welding, etc. for the complete job including additional cost for enlargement of top heading footing. [Equation = ((a+b)*c+(d+e)*f+(g+h)*i+(j+k)*l+(m+n)*o+(p+q)*r)*s/1000] | 2.232,82 | tonne |
| a | Support Category C, top heading | 132,56 | kg |
| b | Support Category C, bench | 73,38 | kg |
| c | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| d | Support Category D, top heading | 160,67 | kg |
| e | Support Category D, bench | 77,00 | kg |
| f | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| g | Support Category E, top heading | 202,68 | kg |
| h | Support Category E, bench | 96,84 | kg |
| i | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| j | Support Category F, top heading | 203,52 | kg |
| k | Support Category F, bench | 96,63 | kg |
| l | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| m | Support Category G, top heading | 219,06 | kg |
| n | Support Category G, bench | 104,00 | kg |
| o | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |

| Item No. | Description of item | Quantity | Unit |
|-----------------------------------|---|-----------|-------|
| p | Support Category H, top heading | 288,49 | kg |
| q | Support Category H, bench | 128,59 | kg |
| r | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| s | Mined tunnel length | 14.083,00 | meter |
| C207 | Providing and fixing yielding elements (Lining Stress Constrollers - LSC or equivalent)) as per approved drawings and Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $a * \text{integer}(c * b)$] | 4.640,00 | pcs |
| a | Number of LSC per tunnel meter in Support Category F | 2,00 | pcs |
| b | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| a | Number of LSC per tunnel meter in Support Category G | 4,00 | pcs |
| b | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| c | Mined tunnel length | 14.083,00 | meter |
| SCHEDULE - D CONCRETE WORK | | | |
| D101 | Design Mix Cement Concrete C25/30 including machine mixed, machine batched, machine vibrated, form work, etc. as per Technical Specifications & drawings or as directed by Employer's Representative. The reinforcement is compensated separately. | | |
| D10101 | Inner lining of tunnel - foundation [Equation = $a * b * c$] | 13.184,12 | cum |
| a | Area of foundation cross section | 0,87 | sqm |
| b | Number of foundations | 2,00 | pcs |
| c | Tunnel length with cross section type without invert | 7.551,04 | meter |
| D10102 | Inner lining of tunnel - invert [Equation = $a * b$] | 62.060,15 | cum |
| a | Area of invert cross section | 9,50 | sqm |
| b | Tunnel length with cross section type with invert | 6.531,96 | meter |
| D10103 | Inner lining of tunnel & niches - vault with radial formwork | | |
| D1010301 | with thickness of 30 cm [Equation = $a * b$] | 68.487,93 | cum |
| a | Concrete cross section | 9,07 | sqm |
| b | Tunnel length with cross section type without invert | 7.551,04 | meter |
| D1010302 | with thickness of 40 cm [Equation = $a * b$] | 76.907,30 | sqm |
| a | Concrete cross section | 11,77 | meter |
| b | Tunnel length with cross section type with invert | 6.531,96 | meter |
| D10104 | Inner lining tunnel ceiling and ventilation wall [Equation = $(a+b) * c$] | 53.050,66 | cum |
| a | Area of ceiling cross section | 3,14 | sqm |
| b | Area of ventilation wall cross section | 0,63 | sqm |
| c | Mined tunnel length | 14.083,00 | meter |
| D102 | Design Mix Cement Concrete C12/15 including mechanically mixed machine mixed, machine batched, machine vibrated, form work, etc. as per Technical Specifications & drawings or as directed by Employer's Representative | | |
| D10201 | Fill concrete in tunnel [Equation = $a * b + c * d$] | 82.955,72 | cum |

| Item No. | Description of item | Quantity | Unit |
|--|---|-----------|----------|
| a | Area of fill around tunnel main drainage pipe in cross section type without invert | 2,37 | sqm |
| b | Tunnel length with cross section type without invert | 7.551,04 | meter |
| c | Area of fill around tunnel main drainage pipe in cross section type with invert | 9,97 | sqm |
| d | Tunnel length with cross section type with invert | 6.531,96 | meter |
| D10202 | Blinding concrete in tunnel [Equation = a*b] | 3.156,33 | cum |
| a | Area of blinding concrete (thickness 5 cm) below both foundation in cross section type without invert | 0,42 | sqm |
| b | Tunnel length with cross section type without invert | 7.551,04 | meter |
| D103 | No-fines porous concrete in tunnel [Equation = a*b+c*d] | 4.723,37 | cum |
| a | Area of porous concrete around left and right side wall drainage in cross section type without invert | 0,30 | sqm |
| b | Tunnel length with cross section type without invert | 7.551,04 | meter |
| c | Area of porous concrete around left and right side wall drainage in cross section type with invert | 0,37 | sqm |
| d | Tunnel length with cross section type with invert | 6.531,96 | meter |
| D104 | Reinforcement for inner lining | | |
| D10401 | Reinforcement for inner lining - foundation [Equation = a*b/1000] | 988,81 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of foundation concrete (Item D10101) | 13.184,12 | cum |
| D10402 | Reinforcement for inner lining - invert [Equation = a*b/1000] | 4.654,51 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of invert concrete (Item D10102) | 62.060,15 | cum |
| D10403 | Reinforcement for inner lining - vault | 6.089,42 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Area of reinforced inner lining vault concrete (Item D1010302) | 12,43 | sqm |
| c | Tunnel length with cross section type with invert | 6.531,96 | meter |
| D10404 | Reinforcement for inner lining tunnel ceiling and ventilation wall | 3.978,80 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of tunnel ceiling and ventilation wall concrete (Item D10104) | 53.050,66 | cum |
| D105 | Concrete tests | 1,00 | lump sum |
| SCHEDULE - E INSTRUMENTATION AND MONITORING | | | |
| E101 | Supply, install, read and maintain of 3D monitoring targets (reflectors) in top heading bench and invert as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $\text{integer}(y*c/a)*b + \text{integer}(y*f/d)*e + \text{integer}(y*i/g)*h + \text{integer}(y*l/j)*k + \text{integer}(y*o/m)*n + \text{integer}(y*r/p)*q + \text{integer}(y*u/s)*t + \text{integer}(y*x/v)*w$] | 9.238,00 | pcs |
| a | Support Category A, measurement section every | 25,00 | meter |
| b | Support Category A, reflectors per measurement section | 5,00 | pcs |
| c | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| d | Support Category B, measurement section every | 25,000 | meter |
| e | Support Category B, reflectors per measurement section | 5,000 | pcs |

| Item No. | Description of item | Quantity | Unit |
|----------|--|-----------|-------|
| f | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| g | Support Category C, measurement section every | 15,000 | meter |
| h | Support Category C, reflectors per measurement section | 5,000 | pcs |
| i | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| j | Support Category D, measurement section every | 10,000 | meter |
| k | Support Category D, reflectors per measurement section | 9,000 | pcs |
| l | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| m | Support Category E, measurement section every | 7,500 | meter |
| n | Support Category E, reflectors per measurement section | 9,000 | pcs |
| o | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| p | Support Category F, measurement section every | 7,500 | meter |
| q | Support Category F, reflectors per measurement section | 9,000 | pcs |
| r | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| s | Support Category G, measurement section every | 5,000 | meter |
| t | Support Category G, reflectors per measurement section | 9,000 | pcs |
| u | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| v | Support Category H, measurement section every | 5,000 | meter |
| w | Support Category H, reflectors per measurement section | 9,000 | pcs |
| x | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| y | Mined tunnel length | 14.083,00 | meter |
| E102 | Supply, drill, install, grout, read and maintain of borehole extensometer (four point) in the tunnel perimeter as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = integer(v*c/a*b)+integer(v*f/d)*e+integer(v*i/g)*h+integer(v*l/j)*k+integer(v*o/m)*n+integer(v*r/p)*q+integer(v*u/s)*t] | 1.130,00 | pcs |
| a | Support Category B, measurement section every | 100,000 | meter |
| b | Support Category B, bore hole extensimeters per measurement section | 2,000 | pcs |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| d | Support Category C, measurement section every | 60,000 | meter |
| e | Support Category C, bore hole extensimeters per measurement section | 2,000 | pcs |
| f | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| g | Support Category D, measurement section every | 35,000 | meter |
| h | Support Category D, bore hole extensimeters per measurement section | 4,000 | pcs |
| i | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| j | Support Category E, measurement section every | 25,000 | meter |
| k | Support Category E, bore hole extensimeters per measurement section | 4,000 | pcs |
| l | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| m | Support Category F, measurement section every | 20,000 | meter |

| Item No. | Description of item | Quantity | Unit |
|----------|---|-----------|-------|
| n | Support Category F, bore hole extensimeters per measurement section | 4,000 | pcs |
| o | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| p | Support Category G, measurement section every | 20,000 | meter |
| q | Support Category G, bore hole extensimeters per measurement section | 4,000 | pcs |
| r | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| s | Support Category H, measurement section every | 20,000 | meter |
| t | Support Category H, bore hole extensimeters per measurement section | 4,000 | pcs |
| u | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| v | Mined tunnel length | 14.083,00 | meter |
| E103 | Supply, install, read and maintain of load cells for rock bolts as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = integer(v*c/a*b)+integer(v*f/d)*e+integer(v*i/g)*h+integer(v*l/j)*k+integer(v*o/m)*n+integer(v*r/p)*q+integer(v*u/s)*t] | 628,00 | pcs |
| a | Support Category B, measurement section every | 100,000 | meter |
| b | Support Category B, load cells per measurement section | 2,000 | pcs |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| d | Support Category C, measurement section every | 60,000 | meter |
| e | Support Category C, load cells per measurement section | 2,000 | pcs |
| f | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| g | Support Category D, measurement section every | 35,000 | meter |
| h | Support Category D, load cells per measurement section | 2,000 | pcs |
| i | Predicted percentage Support Category D of overall excavation | 0,192 | %/100 |
| j | Support Category E, measurement section every | 25,000 | meter |
| k | Support Category E, load cells per measurement section | 2,000 | pcs |
| l | Predicted percentage Support Category E of overall excavation | 0,141 | %/100 |
| m | Support Category F, measurement section every | 20,000 | meter |
| n | Support Category F, load cells per measurement section | 2,000 | pcs |
| o | Predicted percentage Support Category F of overall excavation | 0,086 | %/100 |
| p | Support Category G, measurement section every | 20,000 | meter |
| q | Support Category G, load cells per measurement section | 2,000 | pcs |
| r | Predicted percentage Support Category G of overall excavation | 0,039 | %/100 |
| s | Support Category H, measurement section every | 20,000 | meter |
| t | Support Category H, load cells per measurement section | 2,000 | pcs |
| u | Predicted percentage Support Category H of overall excavation | 0,005 | %/100 |
| v | Mined tunnel length | 14.083,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|----------|---|-----------|-------|
| E104 | Supply, install, read and maintain of strain gauges for shotcrete as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = integer(v*c/a*b)+integer(v*f/d)*e+integer(v*i/g)*h+integer(v*l/j)*k+integer(v*o/m)*n+integer(v*r/p)*q+integer(v*u/s)*t] | 318,00 | pcs |
| a | Support Category B, measurement section every | 100,000 | meter |
| b | Support Category B, strain gauges per measurement section | 1,000 | pcs |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| d | Support Category C, measurement section every | 60,000 | meter |

| E108 | Supply, install, read and maintain of temperature gauges as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = integer(c/a*b)] | 282,00 | pcs |
| a | Formwork block length | 12,500 | meter |
| b | Temperature gauge per formwork block | 0,250 | pcs |
| c | Mined tunnel length | 14.083,00 | meter |
| SCHEDULE - F PAVEMENT | | | |
| F101 | Supply, preparation of material, placing, compacting of granular sub-base with a minimum thickness of 30 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = a*b*c+e*f*(d-a)] | 40.708,65 | cum |

| Item No. | Description of item | Quantity | Unit |
|--|--|------------|----------|
| a | Width of pavement | 8,50 | meter |
| b | Thickness of layer | 0,30 | meter |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Width of pavement lay by | 13,83 | meter |
| e | Lay-by length | 50,00 | meter |
| f | Number of lay-bys | 18,00 | pcs |
| F102 | Supply, mixing, placing, compacting of dry lean cement concrete base layer with a minimum thickness of 5 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $a*c+e*f*(d-a)$] | 124.502,50 | sqm |
| a | Width of pavement | 8,50 | meter |
| b | Thickness of layer | 0,05 | meter |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Width of pavement lay by | 13,83 | meter |
| e | Lay-by length | 50,00 | meter |
| f | Number of lay-bys | 18,00 | pcs |
| F103 | Supply, mixing, placing, compacting of cement concrete pavement with a minimum thickness of 22 cm including construction of contraction joints, expansion joints, longitudinal joints, joint sealing compound, reinforcement, dowel rods and tie bars complete as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = $a*b*c+e*f*(d-a)$] | 124.502,50 | sqm |
| a | Width of pavement | 8,50 | meter |
| b | Thickness of layer | 0,22 | meter |
| c | Mined tunnel length | 14.083,00 | meter |
| d | Width of pavement lay by | 13,83 | meter |
| e | Lay-by length | 50,00 | meter |
| f | Number of lay-bys | 18,00 | pcs |
| F104 | Manufacture, supply, and placing of pre-cast footpath elements in tunnel as per approved drawings, including application of 2 cm mastic asphalt surface. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = $a*b$] | 28.166,00 | meter |
| a | Number of pre-cast elements per cross section | 2,00 | meter |
| b | Mined tunnel length | 14.083,00 | meter |
| BILL 2 - CIVIL ENGINEERING EGRESS TUNNEL | | | |
| SCHEDULE - G DEWATERING ARRANGEMENT | | | |
| SCHEDULE - G1 Temporary Dewatering Arrangement Tunnel | | | |
| G101 | Care of water in max 3.0% drift for downwards drives | 1,00 | lump sum |
| SCHEDULE - G2 Permanent Dewatering Arrangement Tunnel | | | |
| G201 | Providing and laying of perforated PVC pipe of following diameters as drainage pipes, as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |

| Item No. | Description of item | Quantity | Unit |
|----------|--|------------|-------|
| G20101 | 250 mm internal diameter PVC pipe [Equation = $(a+c*d)*b*2$] | 22.583,68 | meter |
| a | Mined egress tunnel length | 14.054,00 | meter |
| b | Predicted length of egress tunnel with inner lining and side wall drainage pipes | 0,71 | %/100 |
| c | Number of cross passages | 55,00 | pcs |
| d | Length of Cross passages | 35,00 | meter |
| G20102 | 400 mm internal diameter PVC pipe [Equation = $a+b*c$] | 15.979,00 | meter |
| a | Mined egress tunnel length | 14.054,00 | meter |
| b | Number of cross passages | 55,00 | pcs |
| c | Length of Cross passages | 35,00 | meter |
| G202 | Providing and installing of dimpled sheets in the tunnel between primary and permanent lining as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $a*b*c$] | 12.185,50 | sqm |
| a | Tunnel perimeter from egress tunnel | 17,34 | meter |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Estimation of tunnel length dimpled sheets required | 0,050 | %/100 |
| G203 | Providing and installing of strip drains in the tunnel as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| G20301 | Strip drain 200 mm x 25 mm [Equation = a] | 1.480,00 | meter |
| a | Estimated strip drain length | 1.480,00 | meter |
| G20302 | Strip drain 200 mm x 40 mm [Equation = a] | 980,00 | meter |
| a | Estimated strip drain length | 980,00 | meter |
| G204 | Providing, laying and fixing of Protective Felt (geotextile) with a minimum weight of 500 g/m ² for protection of the waterproofing membrane & drainage on the finished outer lining surface, including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. [Equation = $(c+d*e)*a*b$] | 195.811,44 | sqm |
| a | Tunnel perimeter from egress tunnel | 17,34 | meter |
| b | Predicted length of egress tunnel with inner lining and side wall drainage pipes | 0,71 | %/100 |
| c | Mined egress tunnel length | 14.054,00 | meter |
| d | Number of cross passages | 55,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| G205 | Providing, placing, welding of 2 mm thick PVC or ECB Water Proofing Membrane including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. | 195.811,44 | sqm |
| a | Tunnel perimeter from egress tunnel | 17,34 | meter |
| b | Predicted length of egress tunnel with inner lining and side wall drainage pipes | 0,71 | %/100 |
| c | Mined egress tunnel length | 14.054,00 | meter |
| d | Number of cross passages | 55,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|--|------------|-------|
| G206 | PVC Water stop serrated with central bulb (225mm wide, 8-11mm thick) [Equation = $a*(c+d*e)*b$] | 22.583,68 | meter |
| a | Water stops per tunnel cross section | 2,00 | pcs |
| b | Predicted length of egress tunnel with inner lining and side wall drainage pipes | 0,71 | %/100 |
| c | Mined egress tunnel length | 14.054,00 | meter |
| d | Number of cross passages | 55,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| G207 | Manufacture, supply, and placing of pre-cast concrete manholes including bell mouth, manhole cover, the cost of all materials, labour, equipment, etc. required for the completion of job as per approved detailed drawings & Technical Specifications or as directed by Employer's Representative. | | |
| G20701 | Cleaning and Inspection chamber for DN250 [Equation = $\text{integer}(c*d/a)*b$] | 200,00 | pcs |
| a | Distance between manholes | 100,00 | meter |
| b | Number of man holes per cross section | 2,00 | pcs |
| c | Mined egress tunnel length | 14.054,00 | meter |
| d | Predicted length of egress tunnel with inner lining and side wall drainage pipes | 0,71 | %/100 |
| G20702 | Cleaning and Inspection chamber for DN400 [Equation = $\text{integer}(c*d/a)*b$] | 100,00 | pcs |
| a | Distance between manholes | 100,00 | meter |
| b | Number of man holes per cross section | 1,00 | pcs |
| c | Mined egress tunnel length | 14.054,00 | meter |
| d | Predicted length of egress tunnel with inner lining and side wall drainage pipes | 0,71 | %/100 |
| SCHEDULE - H UNDERGROUND EXCAVATION | | | |
| SCHEDULE - H1 Excavation | | | |
| H101 | Underground excavation for tunnel in Support Category dominating the Face Area. Including all including drilling, blasting, or other means of excavation, including widening of top heading footings, provision of surface drainage, construction ventilation, lighting arrangement during construction, temporary backfilling for traffic in tunnel, removal of the same and disposal of excavated material to muck disposal area with all lifts as per approved drawings & Technical Specifications. The quantities of excavation are determined to the design lines of excavation as per Technical Specifications. Overexcavation to the overexcavation line defined by the Technical Specifications is compensated with the unit rates. | | |
| H10101 | Excavation in Support Category A; top heading, bench, invert | | |
| H1010101 | Top Heading [Equation = $(b*c+d*e)*a$] | 105.005,98 | cum |
| a | Area of top heading excavation in cross section | 35,08 | sqm |
| b | mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| d | Proposed number of driveable cross passages in Support Category A | 7,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| H10102 | Excavation in Support Category B; top heading, bench, invert | | |
| H1010201 | Top Heading [Equation = $(b*c+d*e)*a$] | 103.467,45 | cum |

| Item No. | Description of item | Quantity | Unit |
|----------|--|------------|-------|
| a | Area of top heading excavation in cross section | 35,82 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| d | Proposed number of driveable cross passages in Support Category B | 4,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| H10103 | Excavation in Support Category C; top heading, bench, invert | | |
| H1010301 | Top Heading [Equation = $(b*c+d*e)*a$] | 82.708,50 | cum |
| a | Area of top heading excavation in cross section | 37,96 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category C of overall excavation | 0,145 | %/100 |
| d | Proposed number of driveable cross passages in Support Category C | 4,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| H10104 | Excavation in Support Category D; top heading, bench, invert | | |
| H1010401 | Top Heading [Equation = $(b*c+d*e)*a$] | 187.002,77 | cum |
| a | Area of top heading excavation in cross section | 39,05 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category D of overall excavation | 0,333 | %/100 |
| d | Proposed number of driveable cross passages in Support Category D | 3,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| H1010402 | Invert [Equation = $(b*c+d*e)*a$] | 59.192,16 | cum |
| a | Area of invert excavation in cross section | 12,36 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category D of overall excavation | 0,333 | %/100 |
| d | Proposed number of driveable cross passages in Support Category D | 3,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| H10105 | Excavation in Support Category E; top heading, bench, invert [Equation = $(a+b)*c*d$] | | |
| H1010501 | Top Heading [Equation = $b*c*a$] | 70.082,07 | cum |
| a | Area of top heading excavation in cross section | 39,83 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category E of overall excavation | 0,125 | %/100 |
| H1010502 | Invert [Equation = $b*c*a$] | 22.622,82 | cum |
| a | Area of invert excavation in cross section | 12,86 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category E of overall excavation | 0,125 | %/100 |
| H10106 | Excavation in Support Category F; top heading, bench, invert | | |
| H1010601 | Top Heading [Equation = $b*c*a$] | 3.592,04 | cum |
| a | Area of top heading excavation in cross section | 47,36 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|---|--------------|--------|
| c | Predicted percentage Support Category F of overall excavation | 0,005 | %/100 |
| H1010602 | Invert [Equation = $b \cdot c \cdot a$] | 1.031,59 | cum |
| a | Area of invert excavation in cross section | 13,60 | sqm |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category F of overall excavation | 0,005 | %/100 |
| H102 | Underground excavation for cross passages for pedestrian use without rock mass classification [Equation = $a \cdot b \cdot c$] | 20.257,69 | cum |
| a | Area of excavation in egress tunnel cross passage for pedestrian use | 15,64 | sqm |
| b | Length of Cross passages | 35,00 | meter |
| c | Number of cross passages pedestrian use | 37,00 | pcs |
| H103 | Mucking of geological overbreak accepted by Employer's Representative as per Technical Specifications [Equation = a] | 2.250,00 | cum |
| a | Predicted geological overbreak | 2.250,00 | cum |
| H104 | Additional underground excavation as directed by Employer's Representative without rock mass classification. [Equation = a] | 980,00 | cum |
| a | Predicted additional underground excavation | 980,00 | cum |
| H105 | Additional payment for extra transportation of excavation material to the muck deposit area as per approved drawings & Technical Specifications. [Equation = $a \cdot b$] | 5.950.362,88 | cum*km |
| a | Predicted volume of excavation material [Equation = $\text{sum}(\text{Item H101}) \cdot 0,75$] | 476.029,03 | cum |
| b | Predicted mean distance to additional deposit area | 12,50 | km |
| H106 | Re-profiling of tunnel due to deformations [Equation = a] | 1.320,00 | cum |
| a | Predicted volume of re-profiling | 1.320,00 | cum |
| H107 | Temporary suspension of D&B excavation [Equation = $a \cdot b \cdot c$] | 201,60 | wd |
| a | Estimated construction time | 2.520,00 | wd |
| b | Predicted suspension in percentage of construction time and face | 0,01 | %/100 |
| c | Number of working faces | 8,00 | pcs |
| SCHEDULE - H2 Drilling and Grouting | | | |
| H201 | Drilling of drainage drilling in the tunnel perimeter and face, diameter 50 mm, length 3 m to 8 m [Equation = $a \cdot b$] | 19.250,00 | meter |
| a | Number of drainage drillings | 3.500,00 | pcs |
| b | Average length of drainage drilling [Equation = $(3+8)/2$] | 5,50 | meter |
| H202 | Drilling of exploratory drilling without core recovery, diameter 50 mm, length up to 20 m [Equation = $a \cdot b$] | 225,00 | meter |
| a | Number of exploratory drillings | 15,00 | pcs |
| b | Average length of drainage drilling | 15,00 | meter |
| H203 | Drilling of exploratory drilling with core recovery, diameter 76 mm | | |
| H20301 | Drilling 0-10 m [Equation = $a \cdot b$] | 37,50 | meter |
| a | Number of exploratory drillings | 5,00 | pcs |
| b | Average length of exploratory drilling | 7,50 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|---|-----------|-----------|
| H20302 | Drilling 10-20 m [Equation = $a*b$] | 75,00 | meter |
| a | Number of exploratory drillings | 5,00 | pcs |
| b | Average length of exploratory drilling | 15,00 | meter |
| H20303 | Drilling 20-30 m [Equation = $a*b$] | 125,00 | meter |
| a | Number of exploratory drillings | 5,00 | pcs |
| b | Average length of exploratory drilling | 25,00 | meter |
| H204 | Strata grouting as defined by the approved drawings the Technical Specifications or directed by the Employer's Representative [Equation = a] | 890,00 | cum |
| a | Estimated volume to be strata grouted | 890,00 | cum |
| SCHEDULE - I PRIMARY & FINAL SUPPORT MEASURES | | | |
| SCHEDULE - I1 Bolts & Anchors | | | |
| I101 | Supply, drilling and installation of frictional rock bolts (Swellx or similar) of the specified length, $F_y \geq 150$ KN (tunnel support) as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| I10101 | Length 3 m [Equation = $\text{integer}(a*b*c+d*e*a+f*e*g)$] | 6.776,00 | pcs |
| a | Number of bolts in Support Category A in top heading per excavation meter | 1,29 | pcs/meter |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category A of overall excavation | 0,196 | %/100 |
| d | Proposed number of cross passages in Support Category A | 7,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| f | Number of cross passages pedestrian use | 37,00 | pcs |
| g | Number of bolts in cross passage pedestrian use per excavation meter | 2,25 | pcs/meter |
| I10102 | Length 4 m [Equation = $\text{integer}(a*b*c+d*e*a)$] | 8.665,00 | pcs |
| a | Number of bolts in Support Category B in top heading per excavation meter | 3,00 | pcs/meter |
| b | Mined egress tunnel length | 14.054,00 | meter |
| c | Predicted percentage Support Category B of overall excavation | 0,196 | %/100 |
| d | Proposed number of cross passages in Support Category B | 4,00 | pcs |
| e | Length of Cross passages | 35,00 | meter |
| I102 | Supply, drilling, installation and grouting of grouted rock bolts (SN type) of the specified length, $F_y \geq 200$ KN (tunnel perimeter & face) as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| I10201 | Length 4 m [Equation = $\text{integer}(a*b*c+d*e*a+f*b*h+g*e*f)$] | 19.433,00 | pcs |
| a | Number of bolts in Support Category C in top heading per excavation meter | 4,29 | pcs/meter |

| SCHEDULE - L PAVEMENT | | | |
| L101 | Supply, preparation of material, placing, compacting of granular sub-base with a minimum thickness of 25 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $a*b*c$] | 23.048,56 | cum |
| a | Width of pavement | 6,56 | meter |
| b | Thickness of layer | 0,25 | meter |
| c | Mined egress tunnel length | 14.054,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|---|-----------|----------|
| L102 | Supply, mixing, placing, compacting of dry lean cement concrete base layer with a minimum thickness of 5 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = a*c] | 92.194,24 | sqm |
| a | Width of pavement | 6,56 | meter |
| b | Thickness of layer | 0,05 | meter |
| c | Mined egress tunnel length | 14.054,00 | meter |
| L103 | Supply, mixing, placing, compacting of cement concrete pavement with a minimum thickness of 15 cm including construction of contraction joints, expansion joints, longitudinal joints, joint sealing compound, reinforcement, dowel rods and tie bars complete as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = a*c] | 92.194,24 | sqm |
| a | Width of pavement | 6,56 | meter |
| b | Thickness of layer | 0,15 | meter |
| c | Mined egress tunnel length | 14.054,00 | meter |
| BILL 3 - CIVIL ENGINEERING VENTILATION SHAFT & VENTILATION CAVERN | | | |
| SCHEDULE - M DEWATERING ARRANGEMENT | | | |
| SCHEDULE - M1 Temporary Dewatering Arrangement | | | |
| M101 | Care of water in shaft drifts d&b construction | 1,00 | lump sum |
| SCHEDULE - M2 Permanent Dewatering Arrangement | | | |
| M201 | Providing and laying of perforated PVC pipe of following diameters as drainage pipes, as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| M20101 | 250 mm internal diameter PVC pipe [Equation = a+b+c+d*e] | 1.162,00 | meter |
| a | Length shaft 1 | 484,00 | meter |
| b | Length shaft 2 | 365,00 | meter |
| c | Length shaft 3 | 208,00 | meter |
| d | Length of caverns | 35,00 | meter |
| e | Number of caverns | 3,00 | pcs |
| M202 | Providing and installing of dimpled sheets in the tunnel between primary lining and foundation as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = ((c+d)*a+e*b+g*h*i)*f] | 4.251,04 | sqm |
| a | Shaft perimeter from cross section d&b shaft | 40,21 | meter |
| b | Shaft perimeter from cross section raise boring shaft | 18,69 | meter |
| c | Length shaft 1 | 484,00 | meter |
| d | Length shaft 2 | 365,00 | meter |
| e | Length shaft 3 | 208,00 | meter |
| f | Estimated tunnel length dimpled sheets requirement | 0,10 | %/100 |
| g | Length of caverns | 35,00 | meter |
| h | Mean perimeter of ventilation cavern | 42,71 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|---|-----------|-------|
| i | Number of caverns | 3,00 | pcs |
| M203 | Providing, laying and fixing of Protective Felt (geotextile) with a minimum weight of 500 g/m ² for protection of the waterproofing membrane & drainage on the finished outer lining surface, including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. [Equation = (c+d)*a+e*b+f*g*h] | 42.510,35 | sqm |
| a | Shaft perimeter from cross section d&b shaft | 40,21 | meter |
| b | Shaft perimeter from cross section raise boring shaft | 18,69 | meter |
| c | Length shaft 1 | 484,00 | meter |
| d | Length shaft 2 | 365,00 | meter |
| e | Length shaft 3 | 208,00 | meter |
| f | Length of caverns | 35,00 | meter |
| g | Mean perimeter of ventilation cavern | 42,71 | meter |
| h | Number of caverns | 3,00 | pcs |
| M204 | Providing, placing, welding of 2 mm thick PVC or ECB Water Proofing Membrane including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. [Equation = (c+d)*a+e*b+f*g*h] | 42.510,35 | sqm |
| a | Shaft perimeter from cross section d&b shaft | 40,21 | meter |
| b | Shaft perimeter from cross section raise boring shaft | 18,69 | meter |
| c | Length shaft 1 | 484,00 | meter |
| d | Length shaft 2 | 365,00 | meter |
| e | Length shaft 3 | 208,00 | meter |
| f | Length of caverns | 35,00 | meter |
| g | Mean perimeter of ventilation cavern | 42,71 | meter |
| h | Number of caverns | 3,00 | pcs |
| M205 | PVC Water stop serrated with central bulb (225mm wide, 8-11mm thick) [Equation) a*b*c] | 210,00 | meter |
| a | Number of water stops per cross section | 2,00 | pcs |
| b | Number of caverns | 3,00 | pcs |
| c | Length of caverns | 35,00 | meter |
| M206 | Manufacture, supply, and placing of inspection and cleaning chambers of PP or PE-HD including bell mouth, manhole cover, the cost of all materials, labour, equipment, etc. required for the completion of job as per approved detailed drawings & Technical Specifications or as directed by Employer's Representative. | | |
| M20601 | Cleaning and Inspection chamber for DN250 [Equation = a*b] | 9,00 | pcs |
| a | Cleaning chambers per cavern | 3,00 | pcs |
| b | Number of caverns | 3,00 | pcs |
| SCHEDULE - N UNDERGROUND EXCAVATION | | | |
| SCHEDULE - N1 Excavation | | | |

| Item No. | Description of item | Quantity | Unit |
|----------|--|-----------|-------|
| N101 | Underground excavation for tunnel in Support Category dominating the Face Area. Including drilling, blasting, or other means of excavation, provision of surface drainage, construction ventilation, lighting arrangement during construction, temporary backfilling for traffic in tunnel, removal of the same and disposal of excavated material to muck disposal area with all lifts as per approved drawings & Technical Specifications. The quantities of excavation are determined to the design lines of excavation as per Technical Specifications. Overexcavation to the overexcavation line defined by the Technical Specifications is compensated with the unit rates. | | |
| N10101 | Support Category 01 [Equation = (b+c)*a*d] | 33.341,06 | cum |
| a | Area of top shaft excavation | 130,70 | sqm |
| b | Length shaft 1 | 484,00 | meter |
| c | Length shaft 2 | 365,00 | meter |
| d | Predicted percentage Support Category 01 of overall excavation | 0,300 | %/100 |
| N10102 | Support Category 02 [Equation = (b+c)*a*d] | 35.412,90 | cum |
| a | Area of top shaft excavation | 132,73 | sqm |
| b | Length shaft 1 | 484,00 | meter |
| c | Length shaft 2 | 365,00 | meter |
| d | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |
| N10103 | Support Category 03 [Equation = (b+c)*a*d] | 27.350,64 | cum |
| a | Area of top shaft excavation | 134,78 | sqm |
| b | Length shaft 1 | 484,00 | meter |
| c | Length shaft 2 | 365,00 | meter |
| d | Predicted percentage Support Category 03 of overall excavation | 0,239 | %/100 |
| N10104 | Support Category 04 [Equation = (b+c)*a*d] | 13.681,38 | cum |
| a | Area of top shaft excavation | 136,85 | sqm |
| b | Length shaft 1 | 484,00 | meter |
| c | Length shaft 2 | 365,00 | meter |
| d | Predicted percentage Support Category 04 of overall excavation | 0,118 | %/100 |
| N10105 | Support Category 05 [Equation = (b+c)*a*d] | 3.412,83 | cum |
| a | Area of top shaft excavation | 141,03 | sqm |
| b | Length shaft 1 | 484,00 | meter |
| c | Length shaft 2 | 365,00 | meter |
| d | Predicted percentage Support Category 05 of overall excavation | 0,029 | %/100 |
| N10106 | Excavation in bored pile section [Equation = a*b] | 30,000 | meter |
| a | Estimated length in bored pile section per shaft | 15,00 | meter |
| b | Number of shafts with bored pile excavation | 2,00 | pcs |
| N102 | Underground excavation for ventilation cavern without rock mass classification as per approved drawings & Technical Specifications or as directed by Employer's Representative without rock mass classification. [Equation = a*b*c] | 34.302,45 | cum |

| Item No. | Description of item | Quantity | Unit |
|--|--|----------|-----------|
| a | Mean excavation cross section of cavern | 326,69 | sqm |
| b | Number of caverns | 3,00 | pcs |
| c | Length of caverns | 35,00 | meter |
| N103 | Raise boring [Equation = $a*b$] | 5.881,06 | cum |
| a | Length of shaft 3 | 208,00 | meter |
| b | Excavation cross section of shaft 3 | 28,27 | sqm |
| SCHEDULE - N2 Drilling and Grouting | | | |
| N201 | Drilling of drainage drilling in the shaft perimeter, diameter 50 mm, length 3 m to 8 m [Equation = $a*b$] | 1.556,50 | meter |
| a | Estimated number of drainage drillings | 283,00 | pcs |
| b | Average length of drainage drilling [Equation = $(3+8)/2$] | 5,50 | meter |
| N202 | Drilling of exploratory drilling without core recovery, diameter 50 mm, length up to 20 m [Equation = a] | 6,00 | pcs |
| a | Estimated number of exploratory drillings | 6,00 | pcs |
| N203 | Drilling of exploratory drilling with core recovery, diameter 76 mm | | |
| N20301 | Drilling 0-10 m [Equation = a] | 2,00 | pcs |
| a | Number of estimated exploratory drillings | 2,00 | pcs |
| N20302 | Drilling 10-20 m [Equation = a] | 2,00 | pcs |
| a | Number of estimated exploratory drillings | 2,00 | pcs |
| N20303 | Drilling 20-30 m [Equation = a] | 2,00 | pcs |
| a | Number of estimated exploratory drillings | 2,00 | pcs |
| N204 | Strata grouting as defined by the approved drawings the Technical Specifications or directed by the Employer's Representative [Equation = a] | 275,00 | cum |
| a | Estimated volume to be strata grouted | 275,00 | cum |
| SCHEDULE - O PRIMARY SUPPORT MEASURES | | | |
| SCHEDULE - O1 Bolts & Anchors | | | |
| O101 | Supply, drilling and installation of frictional rock bolts (Swellax or similar) of the specified length, $F_y \geq 150$ KN (tunnel support) as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| O10101 | Length 4 m [Equation = $\text{integer}((e+f)*(a*b+c*d)+g*h*i)$] | 4.558,00 | pcs |
| a | Number of bolts in Support Category 01 per excavation meter | 1,50 | pcs/meter |
| b | Predicted percentage Support Category 01 of overall excavation | 0,300 | %/100 |
| c | Number of bolts in Support Category 02 per excavation meter | 12,50 | pcs/meter |
| d | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |
| e | Length shaft 1 | 484,00 | meter |
| f | Length shaft 2 | 365,00 | meter |
| g | Number of bolts in cavern excavation per meter | 8,00 | pcs/meter |
| h | Length of caverns | 35,00 | meter |

| l | Length shaft 2 | 365,00 | meter |
| SCHEDULE - P CONCRETE WORK | | | |
| P101 | Design Mix Cement Concrete C25/30 for inner lining of ventilation shaft and cavern including machine mixed, machine batched, machine vibrated, form work, etc. as per Technical Specifications & detailed drawings or as directed by Employer's Representative. The reinforcement is compensated separately. | | |
| P10101 | Ventilation shaft d&b [Equation = $a*(b+c)$] | 16.215,90 | cum |
| a | Area of concreting cross section | 19,10 | sqm |
| b | Length shaft 1 | 484,00 | meter |
| c | Length shaft 2 | 365,00 | meter |
| P10102 | Ventilation shaft raise boring [Equation = $a*b$] | 1.318,72 | cum |
| a | Area of concreting cross section | 6,34 | sqm |
| n | Length of shaft 3 | 208,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|----------|---|-----------|---------|
| P10103 | Ventilation cavern - foundation [Equation = $a*b*c$] | 78,75 | cum |
| a | Area of concreting cross section | 0,75 | sqm |
| b | Length of caverns | 35,00 | meter |
| c | Number of caverns | 3,00 | pcs |
| P10104 | Ventilation cavern - vault [Equation = $a*b*c$] | 1.777,65 | cum |
| a | Area of concreting cross section | 16,93 | sqm |
| b | Length of caverns | 35,00 | meter |
| c | Number of caverns | 3,00 | pcs |
| P10105 | Ventilation cavern - ventilation ducts | 1.183,35 | cum |
| a | Area of concreting cross section | 11,27 | sqm |
| b | Length of caverns | 35,00 | meter |
| c | Number of caverns | 3,00 | pcs |
| P10106 | Bored piles [Equation = $a*b*c*d$] | 1.137,60 | cum |
| a | Number of bored piles per shaft cross section | 48,00 | pcs |
| b | Estimated bored pile length | 15,00 | meter |
| c | Cross section area of pile | 0,79 | sqm/pcs |
| d | Number of shafts with bored pile excavation | 2,00 | pcs |
| P102 | Reinforcement for inner lining of ventilation tunnel & cavern | | |
| P10201 | Reinforcement for inner lining of ventilation shaft d&b [Equation = $a*b*c/1000$] | 608,10 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of concrete (Item P10101) | 16.215,90 | cum |
| c | Estimated volume reinforced | 0,50 | %/100 |
| P10202 | Reinforcement for inner lining of ventilation shaft raise boring [Equation = $a*b*c/1000$] | 98,90 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of concrete (Item P10102) | 1.318,72 | cum |
| c | Estimated volume reinforced | 1,00 | %/100 |
| P10203 | Reinforcement for inner lining of ventilation cavern - foundation [Equation = $a*b/1000$] | 5.906,25 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of concrete (Item P10103) | 78,75 | cum |
| P10204 | Reinforcement for inner lining of ventilation cavern - vault [Equation = $a*b/1000$] | 133,32 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of concrete (Item P10104) | 1.777,65 | cum |
| P10205 | Reinforcement for inner lining of ventilation cavern - ventilation ducts [Equation = $a*b/1000$] | 88,75 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of concrete (Item P10105) | 1.183,35 | cum |
| P10206 | Reinforcement for bored piles [Equation = $a*b/1000$] | 42,66 | tonne |
| a | Reinforcement rate | 75,00 | kg/cum |
| b | Total volume of concrete (Item P10105/2) | 568,80 | cum |

| Item No. | Description of item | Quantity | Unit |
|--|--|----------|-------|
| SCHEDULE - Q INSTRUMENTATION AND MONITORING | | | |
| Q101 | Supply, install, read and maintain of 3D monitoring targets (reflectors) in top heading bench and invert as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $\text{integer}((l+k)*b/a+(l+k)*d/c+(l+k)*f/e+(l+k)*h/g+(l+k)*i/j)*m]$ | 384,00 | pcs |
| a | Support Category 01, measurement section every | 25,00 | meter |
| b | Predicted percentage Support Category 01 of overall excavation | 0,300 | %/100 |
| c | Support Category 02, measurement section every | 25,00 | meter |
| d | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |
| e | Support Category 03, measurement section every | 17,50 | meter |
| f | Predicted percentage Support Category 03 of overall excavation | 0,239 | %/100 |
| g | Support Category 04, measurement section every | 10,00 | meter |
| h | Predicted percentage Support Category 04 of overall excavation | 0,118 | %/100 |
| i | Support Category 05, measurement section every | 5,00 | meter |
| j | Predicted percentage Support Category 05 of overall excavation | 0,029 | %/100 |
| k | Length shaft 1 | 484,00 | meter |
| l | Length shaft 2 | 365,00 | meter |
| m | Reflectors per measurement section | 8,00 | pcs |
| Q102 | Supply, drill, install, grout, read and maintain of borehole extensometer (four point) in the tunnel perimeter as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $\text{integer}((i+j)*b/a+(i+j)*d/c+(i+j)*f/e+(i+j)*h/g)*k]$ | 55,00 | pcs |
| a | Support Category 02, measurement section every | 100,00 | meter |
| b | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |
| c | Support Category 03, measurement section every | 60,00 | meter |
| d | Predicted percentage Support Category 03 of overall excavation | 0,239 | %/100 |
| e | Support Category 04, measurement section every | 35,00 | meter |
| f | Predicted percentage Support Category 04 of overall excavation | 0,118 | %/100 |
| g | Support Category 05, measurement section every | 20,00 | meter |
| h | Predicted percentage Support Category 05 of overall excavation | 0,029 | %/100 |
| i | Length shaft 1 | 484,00 | meter |
| j | Length shaft 2 | 365,00 | meter |
| k | Borehole extensiometer per measurement section | 5,00 | pcs |
| Q103 | Supply, install, read and maintain of load cells for rock bolts as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $\text{integer}((i+j)*b/a+(i+j)*d/c+(i+j)*f/e+(i+j)*h/g)*k]$ | 22,00 | pcs |
| a | Support Category 02, measurement section every | 100,00 | meter |
| b | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |
| c | Support Category 03, measurement section every | 60,00 | meter |
| d | Predicted percentage Support Category 03 of overall excavation | 0,239 | %/100 |

| Item No. | Description of item | Quantity | Unit |
|----------|--|----------|-------|
| e | Support Category 04, measurement section every | 35,00 | meter |
| f | Predicted percentage Support Category 04 of overall excavation | 0,118 | %/100 |
| g | Support Category 05, measurement section every | 20,00 | meter |
| h | Predicted percentage Support Category 05 of overall excavation | 0,029 | %/100 |
| i | Length shaft 1 | 484,00 | meter |
| j | Length shaft 2 | 365,00 | meter |
| k | Load cells per measurement section | 2,00 | pcs |
| Q104 | Supply, install, read and maintain of strain gauges for shotcrete as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $\text{integer}((i+j)*b/a+(i+j)*d/c+(i+j)*f/e+(i+j)*h/g)*k$] | 11,00 | pcs |
| a | Support Category 02, measurement section every | 100,00 | meter |
| b | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |
| c | Support Category 03, measurement section every | 60,00 | meter |
| d | Predicted percentage Support Category 03 of overall excavation | 0,239 | %/100 |
| e | Support Category 04, measurement section every | 35,00 | meter |
| f | Predicted percentage Support Category 04 of overall excavation | 0,118 | %/100 |
| g | Support Category 05, measurement section every | 20,00 | meter |
| h | Predicted percentage Support Category 05 of overall excavation | 0,029 | %/100 |
| i | Length shaft 1 | 484,00 | meter |
| j | Length shaft 2 | 365,00 | meter |
| k | Strain gauges per measurement section | 1,00 | pcs |
| Q105 | Supply, install, read and maintain of strain gauges for concrete as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $\text{integer}((i+j)*b/a+(i+j)*d/c+(i+j)*f/e+(i+j)*h/g)*k$] | 11,00 | pcs |
| a | Support Category 02, measurement section every | 100,00 | meter |
| b | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |
| c | Support Category 03, measurement section every | 60,00 | meter |
| d | Predicted percentage Support Category 03 of overall excavation | 0,239 | %/100 |
| e | Support Category 04, measurement section every | 35,00 | meter |
| f | Predicted percentage Support Category 04 of overall excavation | 0,118 | %/100 |
| g | Support Category 05, measurement section every | 20,00 | meter |
| h | Predicted percentage Support Category 05 of overall excavation | 0,029 | %/100 |
| i | Length shaft 1 | 484,00 | meter |
| j | Length shaft 2 | 365,00 | meter |
| k | Strain gauges per measurement section | 1,00 | pcs |
| Q106 | Supply, install, read and maintain of radial pressure cells as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $\text{integer}((i+j)*b/a+(i+j)*d/c+(i+j)*f/e+(i+j)*h/g)*k$] | 55,00 | pcs |

| Item No. | Description of item | Quantity | Unit |
|------------------------------|---|----------|-------|
| a | Support Category 02, measurement section every | 100,00 | meter |
| b | Predicted percentage Support Category 02 of overall excavation | 0,314 | %/100 |

| f | Predicted percentage Support Category 04 of overall excavation | 0,118 | %/100 |
| g | Support Category 05, measurement section every | 20,00 | meter |
| h | Predicted percentage Support Category 05 of overall excavation | 0,029 | %/100 |
| i | Length shaft 1 | 484,00 | meter |
| j | Length shaft 2 | 365,00 | meter |
| k | Pressure cells per measurement section | 5,00 | pcs |
| Q108 | Supply, install, read and maintain of temperature gauges as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = integer((d+c)/a*b)] | 17,00 | pcs |
| a | Formwork block length | 12,500 | meter |
| b | Temperature gauge per formwork block | 0,250 | pcs |
| c | Length shaft 1 | 484,00 | meter |
| d | Length shaft 2 | 365,00 | meter |
| SCHEDULE - R PAVEMENT | | | |
| R101 | Supply, preparation of material, placing, compacting of granular sub-base with a minimum thickness of 30 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = a*b*c*d] | 756,00 | cum |
| a | Width of pavement | 24,00 | meter |
| b | Thickness of layer | 0,30 | meter |
| c | Length of caverns | 35,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|--|----------|-------|
| d | Number of caverns | 3,00 | pcs |
| R102 | Supply, mixing, placing, compacting of dry lean cement concrete base layer with a minimum thickness of 5 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $a*c*d$] | 2.520,00 | sqm |
| a | Width of pavement | 24,00 | meter |
| b | Thickness of layer | 0,05 | meter |
| c | Length of caverns | 35,00 | meter |
| d | Number of caverns | 3,00 | pcs |
| R103 | Supply, mixing, placing, compacting of cement concrete pavement with a minimum thickness of 25 cm including construction of contraction joints, expansion joints, longitudinal joints, joint sealing compound, reinforcement, dowel rods and tie bars complete as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = $a*c*d$] | 2.520,00 | sqm |
| a | Width of pavement | 24,00 | meter |
| b | Thickness of layer | 0,25 | meter |
| c | Length of caverns | 35,00 | meter |
| d | Number of caverns | 3,00 | pcs |
| BILL 4 - CIVIL ENGINEERING PORTAL WEST | | | |
| SCHEDULE -S DEWATERING ARRANGEMENT | | | |
| SCHEDULE -S1 Temporary Dewatering Arrangement | | | |
| S101 | Care of water in temporary portal construction site | 1,00 | ls |
| SCHEDULE - S2 Permanent Dewatering Arrangement Portal | | | |
| S201 | Providing and laying of PVC pipe of following diameters as main collector pipe, connection pipes, cleaning access pipes etc., as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| S20101 | 250 mm internal diameter PVC pipe [Equation = a] | 115,50 | meter |
| a | Distance between tunnel portal and settling basin | 115,50 | meter |
| S20102 | 400 mm internal diameter PVC pipe [Equation = a] | 195,50 | meter |
| a | Distance between tunnel portal and outlet surface drainage | 195,50 | meter |
| S202 | Providing and laying of perforated PVC pipe of following diameters as drainage pipes, as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| S20201 | 250 mm internal diameter PVC pipe [Equation = $a+b$] | 124,60 | meter |
| a | Length of side drainages portal | 124,60 | meter |
| S203 | Manufacture, supply, and placing of pre-cast concrete slot channel elements as per approved drawings for carriageway drainage [Equation = $a*b+c$] | 94,00 | meter |
| a | Number of pre-cast elements per cross section | 2,00 | pcs |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Additional element at portal | 20,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|---|---|-----------|-------|
| S204 | Providing and installing of dimpled sheets between permanent lining of cut & cover tunnel and backfill material as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = $a*(b-d)+c*d$] | 1.147,40 | sqm |
| a | Perimeter of cut & cover tunnel | 27,80 | meter |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Perimeter of ventilation building | 38,60 | meter |
| d | Length of ventilation building | 11,00 | meter |
| S205 | Providing, placing, welding of 2 mm thick PVC or ECB Water Proofing Membrane including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. [Equation = $a*(b-d)+c*d$] | 1.147,40 | sqm |
| a | Perimeter of cut & cover tunnel | 27,80 | meter |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Perimeter of ventilation building | 38,60 | meter |
| d | Length of ventilation building | 11,00 | meter |
| SCHEDULE - T OPEN EXCAVATION & EARTHWORK | | | |
| T101 | Earthwork in open excavation in all kinds of soils and rock, including rock requiring use of blasting, crow bars, etc. at portals and construction roads and to make berms, surface drains and the like, diversion of irrigation canal, nallah & the like and disposal of the excavated material to dumping site etc. as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate for this item includes all site clearance (cutting of trees, shrubs, roots, vegetation etc.), lift, ascent descent handling & lead to designated muck dump areas as per approved drawings & Technical Specifications, dressing of cuttings to final profile, demarcation and setting out. | | |
| T10101 | Loose excavation as per classification of excavation laid down in the Technical Technical Specifications [Equation = $a*b$] | 23.440,97 | cum |
| a | Total volume of excavation west portal | 24.674,70 | cum |
| b | Estimated per centage of excavation in loose ground condition | 0,95 | %/100 |
| T10102 | Rock excavation as per classification of excavation laid down in the Technical Technical Specifications | 1.233,74 | cum |
| a | Total volume of excavation west portal | 24.674,70 | cum |
| b | Estimated per centage of excavation in rock | 0,05 | %/100 |
| T102 | Embankments and fillings in area of open excavation as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate for this item includes supply, preparation of material, filling and compaction in layers. [Equation = a] | 47.893,00 | cum |
| a | Total volume of filling material in west portal | 47.893,00 | cum |
| T103 | Rip-rap layer on embankments with a minimum thickness of 1.0 m for erosion protection as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate for this item includes supply, preparation of material, placing, labour, equipment for complete job. [Equation = a] | 5.449,00 | sqm |
| a | Area of embankments in plan view of western portal | 5.449,00 | sqm |

| Item No. | Description of item | Quantity | Unit |
|--|--|----------|------|
| T104 | Supply and placing of 120 x 60 cm gabion cage with wire mesh 50 x 50 x 6 mm of Fe 500 as permanent slope protection as per drawings & Technical Specifications or as directed by Employer's Representative. The rate shall compensate all labour, materials (including wire mesh, fill material with boulder size minimum 240 mm), cost of pins, overlapping, hooks, bending, lift, handling, wastage complete with contractor's own equipment for complete job. [Equation = a] | 440,00 | sqm |
| a | Area of gabion construction in vertical view of western portal | 440,00 | sqm |
| T105 | Supply and placing of geotextile as filter membrane behind gabion cage | 440,00 | sqm |
| a | Total area of gabion cage (Item R104) | 440,00 | sqm |
| SCHEDULE - U PRIMARY SUPPORT MEASURES | | | |
| SCHEDULE - U1 Bolts & Anchors | | | |
| U101 | Supply, drilling, installation and grouting of SN type rock bolts of the specified length, $F_y \geq 200$ KN as per approved drawings & Technical Specifications or as directed by the Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| U10101 | Length 8 m [Equation = a] | 79,00 | pcs |
| a | Number of bolts in western portal | 79,00 | pcs |
| U102 | Supply, drilling, installation, grouting and pre-stressing of pre-stressed anchors with double corrosion protection at slopes as per approved drawings and Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| U10201 | Length 20 m [Equation = a] | 200,00 | pcs |
| a | Number of anchors in western portal | 200,00 | pcs |
| SCHEDULE - U2 Shotcrete & Wire Mesh | | | |
| U201 | Sprayed concrete with designed mix cement concrete SpC20/25/II/J1/XF3/GK8 as per Technical Specifications & drawings or as directed by Employer's Representative including all materials, labour, equipment, etc. required for complete job. | | |
| U20101 | Thickness of 50 mm [Equation = a+b] | 503,10 | sqm |
| a | Shotcrete area 1 (4:5 cut) | 269,50 | sqm |
| b | Shotcrete area 2 (4:5 cut) | 233,60 | sqm |
| U20102 | Thickness of 100 mm [Equation = a+b] | 479,30 | sqm |
| a | Shotcrete area 3 (2:1 cut) | 303,70 | sqm |
| b | Shotcrete area 4 (2:1 cut) | 175,60 | sqm |
| U20103 | Thickness of 200 mm [Equation = a+b+c] | 1.423,80 | sqm |
| a | Shotcrete area 5 (5:1 cut) | 237,00 | sqm |
| b | Shotcrete area 6 (5:1 cut) | 690,00 | sqm |
| c | Shotcrete area 7 (5:1 cut) | 496,80 | sqm |
| U202 | Sprayed concrete SpC20/25/II/J1/XF3/GK8 as per Technical Specifications & drawings or as directed by Employer's Representative for temporary surface drains [Equation = a] | 40,00 | cum |
| a | Additional volume of shotcrete estimated for surface drains | 40,00 | cum |

| Item No. | Description of item | Quantity | Unit |
|-----------------------------------|--|----------|--------|
| U203 | Sprayed concrete SpC20/25/II/J1/XF3/GK8 as per Technical Specifications & drawings or as directed by Employer's Representative for shotcrete beam with a height of 50 cm and a thickness of 50 cm including reinforcement. [Equation = (a+b+c+d+e+f+g+h+i+j+k+l+m)*n*o] | 108,93 | cum |
| a | Shotcrete beam 1 | 11,60 | meter |
| b | Shotcrete beam 2 | 22,40 | meter |
| c | Shotcrete beam 3 | 25,30 | meter |
| d | Shotcrete beam 4 | 40 | meter |
| e | Shotcrete beam 5 | 49,9 | meter |
| f | Shotcrete beam 6 | 48,6 | meter |
| g | Shotcrete beam 7 | 47,6 | meter |
| h | Shotcrete beam 8 | 46,2 | meter |
| i | Shotcrete beam 9 | 20 | meter |
| j | Shotcrete beam 10 | 21,9 | meter |
| k | Shotcrete beam 11 | 27,8 | meter |
| l | Shotcrete beam 12 | 33,8 | meter |
| m | Shotcrete beam 13 | 40,6 | meter |
| n | Thickness of beam | 0,5 | meter |
| o | Height of beam | 0,5 | meter |
| U204 | Supply and placing of 150 x 150 x 6 mm welded wire fabric of Fe 500 as reinforcement in slopes as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include all labour, materials, cost of pins, overlapping, hooks, lead, lift, handling, wastage complete with contractor's own equipment for complete job. [Equation = a*b/1000] | 10,35 | tonne |
| a | Total area of wire mesh | 3.326,90 | sqm |
| b | Unit weight of wire mesh | 3,11 | kg/sqm |
| SCHEDULE - V CONCRETE WORK | | | |
| V101 | Design Mix Cement Concrete works including machine mixed, machine batched, machine vibrated, form work, etc. but excluding the cost of reinforcement as per Technical Specifications & drawings or as directed by Employer's Representative. | | |
| V10101 | Concrete C12/15 as binding concrete [Equation = a*b] | 22,24 | cum |
| a | Area of binding concrete under cut and cover foundation | 0,60 | sqm |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| V10102 | Concrete C25/30 [Equation = a*b+c+d+e+f+g+h] | 1.936,40 | cum |
| a | Concrete area of cut & cover tunnel | 22,40 | sqm |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Concrete required for wing wall and attic | 217,40 | cum |
| d | Additional concrete required for ventilation building | 413,60 | cum |
| e | Concrete required for fresh air ventilation shaft | 68,30 | cum |
| f | Concrete required for exhaust air ventilation shaft | 84,80 | cum |

| Item No. | Description of item | Quantity | Unit |
|------------------------------|--|----------|-----------|
| g | Concrete required for fresh air duct | 29,20 | cum |
| h | Concrete required for exhaust air duct | 294,30 | cum |
| V102 | Reinforcement steel [Equation = $a*b$] | 154,91 | tonne |
| a | Reinforcement grate | 0,08 | tonne/cum |
| b | Total volume of concrete works (Item T10102) | 1.936,40 | cum |
| V103 | Water stop [Equation = $a*b$] | 74,00 | meter |
| a | Number of water stops per cross section | 2,00 | pcs |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| SCHEDULE - W PAVEMENT | | | |
| W101 | Supply, preparation of material, placing, compacting of granular sub-base with a minimum thickness of 30 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $(a*b+c*d+e+f*g)*h$] | 1.341,51 | cum |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Pavement width of road from portal to junction of service road and highway | 8,50 | meter |
| d | Length of road from final portal to junction of service road and highway | 130,20 | meter |
| e | Area of vehicle hard standing in portal west | 1.721,20 | sqm |
| f | Pavement width of service road length | 3,00 | meter |
| g | Service road length | 443,10 | meter |
| h | Layer thickness | 0,30 | meter |
| W102 | Supply, mixing, placing, compacting of dry lean cement concrete base layer with a minimum thickness of 5 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $a*b+c*d+e$] | 3.142,40 | sqm |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Length of road from final portal to junction of service road and highway | 130,20 | meter |
| d | Pavement width of road from portal to junction of service road and highway | 8,50 | meter |
| e | Area of vehicle hard standing in portal west | 1.721,20 | sqm |
| W103 | Sloping concrete C12/15 [Equation = $a*b*c$] | 47,18 | cum |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Mean layer thickness | 0,15 | meter |
| W104 | Supply, mixing, placing, compacting of cement concrete pavement with a minimum thickness of 22 cm including construction of contraction joints, expansion joints, longitudinal joints, joint sealing compound, reinforcement, dowel rods and tie bars complete as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = $a*b+c*d+e$] | 3.142,40 | sqm |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|--|----------|-------|
| b | Length of cut & cover tunnel west | 37,00 | meter |
| c | Length of road from final portal to junction of service road and highway | 130,20 | meter |
| d | Pavement width of road from portal to junction of service road and highway | 8,50 | meter |
| e | Area of vehicle hard standing in portal west | 1.721,20 | sqm |
| W105 | Manufacture, supply, and placing of pre-cast footpath elements in tunnel as per approved drawings, including application of 2 cm mastic asphalt surface. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = a*b] | 74,00 | meter |
| a | Number of pre-cast elements per cross section | 2,00 | pcs |
| b | Length of cut & cover tunnel west | 37,00 | meter |
| W106 | Supply, preparation of material, placing, compacting of granular base with a minimum thickness of 20 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = a*b*c] | 265,86 | cum |
| a | Pavement width of service road length | 3,00 | meter |
| b | Service road length | 443,10 | meter |
| c | Layer thickness | 0,20 | meter |
| W107 | Supply, mixing, placing, compacting of bituminous pavement with a minimum thickness of 10 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = a*b] | 1.329,30 | sqm |
| a | Pavement width of service road length | 3,00 | meter |
| b | Service road length | 443,10 | meter |
| SCHEDULE - X BUILDINGS | | | |
| X101 | Construction of buildings [Equation = 3*a+3*b+2*c+2*d+2*e] | 5.424,00 | sqm |
| a | Main control centre | 600,00 | sqm |
| b | Ventilation Building | 950,00 | sqm |
| c | Fire brigade post | 75,00 | sqm |
| d | Operation and maintenance building | 200,00 | sqm |
| e | Traffic aid port/medical/rescue | 112,00 | sqm |
| BILL 5 - CIVIL ENGINEERING PORTAL EAST | | | |
| SCHEDULE -Y DEWATERING ARRANGEMENT | | | |
| SCHEDULE - Y1 Temporary Dewatering Arrangement Portal | | | |
| Y101 | Care of water in temporary portal construction site | 1,00 | ls |
| SCHEDULE - Y2 Permanent Dewatering Arrangement Portal | | | |
| Y201 | Providing and laying of PVC pipe of following diameters as main collector pipe, connection pipes, cleaning access pipes etc., as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| Y20101 | 250 mm internal diameter PVC pipe [Equation = a] | 79,40 | meter |
| a | Distance between tunnel portal and inlet surface channel | 79,40 | meter |
| Y20102 | 400 mm internal diameter PVC pipe [Equation = a] | 74,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|---|---|-----------|-------|
| a | Distance between tunnel portal and inlet surface channel | 74,00 | meter |
| Y202 | Providing and laying of perforated PVC pipe of following diameters as drainage pipes, as per approved drawings & Technical Specifications or as directed by Employer's Representative. | | |
| Y20201 | 250 mm internal diameter PVC pipe [Equation = a] | 334,00 | meter |
| a | Length of side drainages portal | 334,00 | meter |
| Y203 | Manufacture, supply, and placing of pre-cast concrete slot channel elements as per approved drawings for carriageway drainage [Equation = a*b+c] | 80,00 | meter |
| a | Number of pre-cast elements per cross section | 2,00 | pcs |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Additional slot element at portal | 20,00 | meter |
| Y204 | Providing and installing of dimpled sheets between permanent lining of cut & cover tunnel and backfill material as per approved drawings & Technical Specifications or as directed by Employer's Representative. [Equation = a*(b-d)+c*d] | 952,80 | sqm |
| a | Perimeter of cut & cover tunnel | 27,80 | meter |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Perimeter of ventilation building | 38,60 | meter |
| d | Length of ventilation building | 11,00 | meter |
| Y205 | Providing, placing, welding of 2 mm thick PVC or ECB Water Proofing Membrane including the cost of all materials, labour, equipment, etc. required for the completion of job, as per Technical Specifications or as directed by the Employer's Representative. [Equation = a*(b-d)+c*d] | 952,80 | sqm |
| a | Perimeter of cut & cover tunnel | 27,80 | meter |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Perimeter of ventilation building | 38,60 | meter |
| d | Length of ventilation building | 11,00 | meter |
| SCHEDULE - Z OPEN EXCAVATION & EARTHWORK | | | |
| Z101 | Earthwork in open excavation in all kinds of soils and rock, including rock requiring use of blasting, crow bars, etc. at portals and construction roads and to make berms, surface drains and the like, diversion of irrigation canal, nallah & the like and disposal of the excavated material to dumping site etc. as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate for this item includes all site clearance (cutting of trees, shrubs, roots, vegetation etc.), lift, ascent descent handling & lead to designated muck dump areas as per approved drawings & Technical Specifications, dressing of cuttings to final profile, demarcation and setting out. | | |
| Z10101 | Loose excavation as per classification of excavation laid down in the Technical Technical Specifications [Equation = a*b] | 2.778,54 | cum |
| a | Total volume of excavation east portal | 18.523,60 | cum |
| b | Estimated per centage of excavation in loose ground condition | 0,15 | %/100 |
| Z10102 | Rock excavation as per classification of excavation laid down in the Technical Technical Specifications [Equation = a*b] | 21.499,99 | cum |

| Item No. | Description of item | Quantity | Unit |
|---|---|-----------|-------|
| a | Total volume of excavation east portal | 25.294,10 | cum |
| b | Estimated per centage of excavation in loose ground condition | 0,85 | %/100 |
| Z102 | Embankments and fillings in area of open excavation as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate for this item includes supply, preparation of material, filling and compaction in layers. [Equation = a] | 97.597,00 | cum |
| a | Total volume of filling material in east portal | 97.597,00 | cum |
| Z103 | Rip-rap layer on embankments with a minimum thickness of 1.0 m for erosion protection as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate for this item includes supply, preparation of material, placing, labour, equipment for complete job. [Equation = a] | 9.100,00 | sqm |
| a | Area of embankments in plan view of eastern portal | 9.100,00 | sqm |
| Z104 | Supply and placing of 120 x 60 cm gabion cage with wire mesh 50 x 50 x 6 mm of Fe 500 as permanent slope protection as per drawings & Technical Technical Specifications or as directed by Employer's Representative. The rate shall compensate all labour, materials (including wire mesh, fill material with boulder size minimum 240 mm), cost of pins, overlapping, hooks, bending, lift, handling, wastage complete with contractor's own equipment for complete job. [Equation = a] | 1.003,00 | sqm |
| a | Area of gabion construction in vertical view of eastern portal | 1.003,00 | sqm |
| Z105 | Supply and placing of geotextile as filter membrane behind gabion cage [Equation = a] | 1.003,00 | sqm |
| a | Total area of gabion cage (Item W104) | 1.003,00 | sqm |
| SCHEDULE - ZA PRIMARY SUPPORT MEASURES | | | |
| SCHEDULE - ZA1 Bolts & Anchors | | | |
| ZA101 | Supply, drilling, installation and grouting of 16 mm dia. reinforcement bars as soil nails at slopes as per approved drawings and Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| ZA10101 | Length 8 m [Equation = a] | 171,00 | pcs |
| a | Number of nails in eastern portal | 171,00 | pcs |
| ZA102 | Supply, drilling, installation, grouting and pre-stressing of pre-stressed anchors with double corrosion protection at slopes as per approved drawings and Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| ZA10201 | Length 20 m [Equation = a] | 77,00 | pcs |
| a | Number of ground anchors in eastern portal | 77,00 | pcs |
| ZA103 | Supply, drilling, installation, grouting and glass fibre plastic (GFP) self-drilling bolt at slopes as per approved drawings and Technical Specifications or as directed by Employer's Representative. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. | | |
| ZA10301 | Length 9 m [Equation = a] | 84,00 | pcs |
| a | Number of self drilling bolts at eastern portal | 84,00 | pcs |
| SCHEDULE - ZA2 Shotcrete & Wire Mesh | | | |

| Item No. | Description of item | Quantity | Unit |
|------------------------------------|--|----------|--------|
| ZA201 | Sprayed concrete with designed mix cement concrete SpC20/25/II/J1/XF3/GK8 as per Technical Specifications & drawings or as directed by Employer's Representative including all materials, labour, equipment, etc. required for complete job. | | |
| ZA20101 | Thickness of 50 mm [Equation = -] | - | sqm |
| ZA20102 | Thickness of 100 mm [Equation = a+b+c+d+e+f] | 847,20 | sqm |
| a | Shotcrete area 1 (2:1 cut) | 140,00 | sqm |
| b | Shotcrete area 2 (2:1 cut) | 224,00 | sqm |
| c | Shotcrete area 3 (2:1 cut) | 144,00 | sqm |
| d | Shotcrete area 4 (2:1 cut) | 115,20 | sqm |
| e | Shotcrete area 5 (2:1 cut) | 113,80 | sqm |
| f | Shotcrete area 6 (2:1 cut) | 110,20 | sqm |
| ZA20103 | Thickness of 200 mm [Equation = a+b+c] | 1.202,60 | sqm |
| a | Shotcrete area 7 (5:1 cut) | 588,00 | sqm |
| b | Shotcrete area 8 (5:1 cut) | 425,60 | sqm |
| c | Shotcrete area 9 (5:1 cut) | 189,00 | sqm |
| ZA202 | Sprayed concrete SpC20/25/II/J1/XF3/GK8 as per Technical Specifications & drawings or as directed by Employer's Representative for temporary surface drains [Equation = a] | 37,00 | cum |
| a | Additional volume of shotcrete estimated for surface drains | 37,00 | cum |
| ZA203 | Supply and placing of 150 x 150 x 6 mm welded wire fabric of Fe 500 as reinforcement in slopes as per approved drawings & Technical Specifications or as directed by Employer's Representative. The rate shall include all labour, materials, cost of pins, overlapping, hooks, lead, lift, handling, wastage complete with contractor's own equipment for complete job. [Equation = a*b/1000] | 10,11 | tonne |
| a | Total area of wire mesh | 3.252,40 | sqm |
| b | Unit weight of wire mesh | 3,11 | kg/sqm |
| SCHEDULE - ZB CONCRETE WORK | | | |
| ZB101 | Design Mix Cement Concrete works including machine mixed, machine batched, machine vibrated, form work, etc. but excluding the cost of reinforcement as per Technical Specifications & drawings or as directed by Employer's Representative. | | |
| ZB10101 | Concrete C12/15 | 18,03 | cum |
| a | Area of binding concrete under cut and cover foundation | 0,60 | sqm |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| ZB10102 | Concrete C25/30 [Equation = a*b+c+d+e+f+g+h] | 1.770,20 | cum |
| a | Concrete area of cut & cover tunnel | 22,40 | sqm |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Concrete required for wing wall and attic | 150,30 | cum |
| d | Additional concrete required for ventilation building | 413,60 | cum |
| e | Concrete required for fresh air ventilation shaft | 61,10 | cum |
| f | Concrete required for exhaust air ventilation shaft | 139,50 | cum |

| Item No. | Description of item | Quantity | Unit |
|-------------------------------|--|----------|-----------|
| g | Concrete required for fresh air duct | 24,00 | cum |
| h | Concrete required for exhaust air duct | 309,70 | cum |
| ZB102 | Reinforcement steel [Equation = $a*b$] | 141,62 | tonne |
| a | Reinforcement grate | 0,08 | tonne/cum |
| b | Total volume of concrete works (Item ZA10102) | 1.770,20 | cum |
| ZB103 | Water stop | 60,00 | meter |
| a | Number of water stops per cross section | 2,00 | pcs |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| SCHEDULE - ZC PAVEMENT | | | |
| ZC101 | Supply, preparation of material, placing, compacting of granular sub-base with a minimum thickness of 30 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $(a*b+c*d+e+f*g)*h$] | 1.363,11 | cum |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Pavement width of road from portal to junction of service road and highway | 8,50 | meter |
| d | Length of road from final portal to junction of service road and highway | 87,40 | meter |
| e | Area of vehicle hard standing in portal east | 2.216,50 | sqm |
| f | Pavement width of service road length | 3,00 | meter |
| g | Service road length | 443,10 | meter |
| h | Layer thickness | 0,30 | meter |
| ZC102 | Supply, mixing, placing, compacting of dry lean cement concrete base layer with a minimum thickness of 5 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = $a*b+c*d+e$] | 2.719,10 | sqm |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Length of road from final portal to junction of service road and highway | 87,40 | meter |
| d | Pavement width of road from portal to junction of service road and highway | 8,50 | meter |
| e | Area of vehicle hard standing in portal east | 1.721,20 | sqm |
| ZC103 | Sloping concrete C12/15 [Equation = $a*b*c$] | 38,25 | cum |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Layer thickness | 0,15 | meter |
| ZC104 | Supply, mixing, placing, compacting of cement concrete pavement with a minimum thickness of 22 cm including construction of contraction joints, expansion joints, longitudinal joints, joint sealing compound, reinforcement, dowel rods and tie bars complete as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = $a*b+c*d+e$] | 2.719,10 | sqm |
| a | Pavement width of cut & cover tunnel | 8,50 | meter |

| Item No. | Description of item | Quantity | Unit |
|---|--|-----------|----------|
| b | Length of cut & cover tunnel east | 30,00 | meter |
| c | Length of road from final portal to junction of service road and highway | 87,40 | meter |
| d | Pavement width of road from portal to junction of service road and highway | 8,50 | meter |
| e | Area of vehicle hard standing in portal east | 1.721,20 | sqm |
| ZC105 | Manufacture, supply, and placing of pre-cast footpath elements in tunnel as per approved drawings, including application of 2 cm mastic asphalt surface. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = a*b] | 60,00 | meter |
| a | Number of pre-cast elements per cross section | 2,00 | pcs |
| b | Length of cut & cover tunnel east | 30,00 | meter |
| ZC106 | Supply, preparation of material, placing, compacting of granular base with a minimum thickness of 20 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, etc. required for the complete job. [Equation = a*b*c] | 261,42 | cum |
| a | Pavement width of service road length | 3,00 | meter |
| b | Service road length | 435,70 | meter |
| c | Layer thickness | 0,20 | meter |
| ZC107 | Supply, mixing, placing, compacting of bituminous pavement with a minimum thickness of 10 cm as per approved drawings & Technical Specifications. The rate shall include costs of all materials, labour, equipment, quality checks etc. required for the complete job. [Equation = a*b] | 1.307,10 | cum |
| a | Pavement width of service road length | 3,00 | meter |
| b | Service road length | 435,70 | meter |
| SCHEDULE - ZD BUILDINGS | | | |
| ZD101 | Construction of buildings [Equation = 3*a+3*b+2*c+2*d] | 4.674,00 | sqm |
| a | Main control centre | 400,00 | sqm |
| b | Ventilation Building | 950,00 | sqm |
| c | Operation and maintenance building | 200,00 | sqm |
| d | Traffic aid port/medical/rescue | 112,00 | sqm |
| BILL 6 -SITE FACILITY & TIME-DEPENDENT COSTS | | | |
| SCHEDULE S&T-A - SITE FACILITY | | | |
| S&T-A101 | Installation of site facility and clearance of site installation including all labour, machinery and transportation to the site location. | 1,00 | lump sum |
| S&T-A102 | Formwork inner lining [Equation = a+b+c+d] | 11,00 | pcs |
| a | Number of formwork carriages main tunnel vault | 4,00 | pcs |
| b | Number of formwork carriages shaft | 2,00 | pcs |
| c | Number of formwork carriages egress tunnel | 4,00 | pcs |
| d | Number of formwork carriages cavern | 1,00 | pcs |
| S&T-A103 | Formwork ventilation ceiling [Equation = a] | 8,00 | pcs |
| a | Number of formwork ventilation ceiling | 8,00 | pcs |
| S&T-A104 | Temporary ventilation ducts [Equation = 2*a+b+c+d] | 29.223,00 | meter |

| Item No. | Description of item | Quantity | Unit |
|--|--|-----------|----------|
| a | Mined tunnel length | 14.083,00 | meter |
| b | Length of shaft 1 | 484,00 | meter |
| c | Length of shaft 2 | 365,00 | meter |
| d | Length of shaft 3 | 208,00 | meter |
| S&T-A105 | Temporary lighting | 29.223,00 | meter |
| a | Mined tunnel length | 14.083,00 | meter |
| b | Length of shaft 1 | 484,00 | meter |
| c | Length of shaft 2 | 365,00 | meter |
| d | Length of shaft 3 | 208,00 | meter |
| S&T-A106 | Site facility costs | 1,00 | lump sum |
| S&T-A107 | Costs for miscellaneous site facility, machinery and material not included in time dependent costs and general site facility costs | 1,00 | lump sum |
| SCHEDULE S&T-B - TIME DEPENDENT COSTS | | | |
| S&T-B101 | Time dependent costs from commencement of construction to commencement of mined tunnel excavation | 1,00 | lump sum |
| S&T-B102 | Time dependent costs commencement of tunnel excavation to end of concrete works | 1,00 | lump sum |
| S&T-B103 | Time dependent costs end of concrete works to end of construction works | 1,00 | lump sum |
