Instructions to Bidders (ITB)

A. General

1. Name and Scope of Work:

- 1.1. The Executing Agency (as defined in the Appendix to ITB) invites bids for “Renovation, Repair, Re-surfacing & Construction of 8 no. of urban link road at Kargil town (PKG-2) in UT of Ladakh”
- 1.2. Throughout these bidding documents, the terms “bid” and “tender” and their derivatives (bidder/tenderer, bid/tender, bidding/tendering, etc.) are synonymous.

2. Source of Funds

- 2.1. The expenditure on this project will be provided by the Director, Urban Local Bodies Department Government of UT of Ladakh to the National Highways & Infrastructure Development Corporation Limited (NHIDCL).

3. Eligible Bidders

- 3.1. **For the registered government contractors:** The bid is open to contractors who are registered in the appropriate class with the government departments in CPWD/AIR/Railways/MES/BRO/ and PSU’s of state and Central Governments such as BSNL, NHPC, NBCC etc. in the Public works Departments of state governments, Union Territories and its allied departments viz. Roads and Buildings, Irrigation, Public Health etc.
- 3.2. **For the non-registered contractors:** Bidder may be an individual, private entity, sole or partnership firm, company incorporated and registered in India, having prior experience of executing road works are eligible for bidding for this work.
- 3.3. Bidders shall not be under a declaration of ineligibility for corrupt and fraudulent practices by the Central Government, the State Government or any public undertaking, Autonomous body, authority by whatever name called under the Central or the State Government.
The eligible bidders at 3.1 and 3.2 above shall scan and upload the documents stated under Clause 11.2 as per their category to participate in the technical bid.

4. One Bid per Bidder

- 4.1. Each Bidder shall submit only one Bid for the work. A Bidder who submits more than one Bid will cause the proposals with the Bidder's participation to be **disqualified**.

5. Cost of Bidding

- 5.1. The Bidder shall bear all costs associated with the preparation and submission of his Bid, and the Executing Agency will, in no case, be responsible or liable for those costs.

6. Site/Drawings details

- 6.1. i) The site for the work is available.
ii) The indicative Drawings showing the location of the proposed roads along with approximate length attached with the bid document.
- 6.2. The Bidder, at his own cost, responsibility and risk, is encouraged to visit, examine and familiarise himself with the Site of Works, road conditions, road geometrics and its surroundings including source of earth, water, materials such as aggregates, bitumen, binder material etc. and obtain all information that may be necessary for preparing the Bid and entering into a contract for construction of the Works. The costs of visiting the Site shall be at the Bidder's own expense. He may contact the person whose contact details are given in the Appendix to ITB.

B. Bidding Documents

7. Content of Bidding Documents

- 7.1. The bidder is expected to examine the Schedule of Quantities enclosed with bid document, indicative tender drawings, Technical and Particular specifications, contract conditions and special conditions of contract and access the site locations and include all transportation and miscellaneous cost while quoting the bid. The bill of

quantities enclosed is financial bid in which the bidder is to quote a fixed percentage against the estimated cost given in the BOQ excluding GST which will be the contract price for this bid.

- 7.2. The bidder is expected to examine carefully all instructions, conditions of contract, contract data, forms, terms, and specifications, Schedule of Quantities, bill of quantities, forms and drawings in the Bid Document. Failure to comply with the requirements of Bid Documents shall be at the bidder's own risk. Pursuant to clause 22 hereof, bids, which are not substantially responsive to the requirements of the Bid Documents, shall be **rejected**.

8. Clarification of Bidding Documents

- 8.1. A prospective Bidder requiring any clarification on the bid document may notify the Executing Agency in writing or by e-mail (scanned copy) at the Executing Agency's address indicated in the Notice Inviting Tender. The Executing Agency will respond to any request for clarification received earlier than 7 days prior to the deadline for submission of bids through mail in case of valid queries however the bidders are instructed to forward their queries before the prebid meeting preferably. Copies of the Executing Agency's response will be hosted on website or which are required in the opinion of the Executing Agency including a description of the enquiry, but without identifying its source for the queries received prior to pre bid meeting.

9. Amendment of Bidding Documents

- 9.1. Before the deadline for submission of bids, the Executing Agency may modify the bidding documents by issuing addenda.
- 9.2. Any addendum thus issued shall be part of the bidding documents and shall be hosted on the NHIDCL website/e-procurement portal only.
- 9.3. To give prospective bidders reasonable time in which to take an addendum into account in preparing their bids, the Executing Agency shall extend, as necessary, the deadline for submission of bids, in accordance with Clause 17.

C. Preparation of Bids

10. Language of Bid

- 10.1. All documents relating to the Bid shall be in English and all correspondence would be in the same language.

11. Documents Comprising the Bid

- 11.1. The e-bid submitted by the bidder shall be in two separate parts.
Part-I: Technical Bid
Part-II: Financial Bid.
- 11.2. **A) Technical Bid:** The intending bidders must read the terms & conditions of tender documents carefully. The Technical Bid shall be uploaded with scanned copies of following documents. All the documents must be Serial wise as stated below along with check list.

- 11.3. The following documents forms the entire bid and the contract document. The bidders are informed that the following documents which are uploaded with the RFP are uploaded for information and for the purpose of understanding of the nature and scope of work for the bidders. The documents will form part of the bid and subsequently part of the contract agreement with the successful bidder.

Sections	Particular
Section VIII	Conditions of Contract and Contract Data Including Annexures
Section IX	Scope of Work & Technical Specifications
Section X	Particular Specifications
Section XI	List of Approved Makes of Materials

12. **Bid Prices**

- 12.1. The Contract shall be in the mode of Percentage rate tender viz. the bidder is to quote a fixed percentage below/above/ at par (in figures as well as in words) against the total estimated cost given in the BOQ (excluding GST) which will be the contract price for this tender this amount is for the full scope of work stated in the Schedule of Quantities and as per the indicative drawings, specifications.
- 12.2. **The bidder shall quote bid prices on appropriate format enclosed as part of tender document on <https://eprocure.gov.in/eprocure/app>.**
- 12.3. The bidder is required to quote the amount excluding GST. GST at the existing rate & applicable laws will be paid to the contractor along with the each bill; however, the contractor has to submit the proof of GST payment to government before next bill. In case, of non-submission of GST proof, the same will be recovered in the next bill.
- 12.4. Based on the percentage quoted, the contract prices shall be fixed for the duration of the Contract and shall not be subject to adjustment, except otherwise specified in relevant clauses of contract if any in the contract clauses.
- 12.5. The tender submitted shall be treated as invalid if:
- 1) The contractor does not quote percentage above/ below/ atpar on the total amount of estimated cost
 - 2) The percentage above / below /atpar is not quoted in figures and words
 - 3) The percentage above / below /atpar is different in figures and words against the estimated cost.
 - 4) Bids which proposed any alteration in the works specified / time allowed / which contents any other conditions of any sort including conditional rebates.
- 12.6. In case the lowest tender amount (estimated cost plus or minus the percentage quoted by the bidder) of 2 or more contractors is same such lowest contractors will be asked to submit sealed revised offer in the form of letter mentioned in percentage above/ below / atpar against the estimated cost of tender, subjected to that the revised offered percentage quoted above / below/ atpar against the estimated cost should not be higher than the percentage quoted at the time of submission of initial bid. The successful bidder shall be the lowest bid received on the basis of revised offer. In case if any of such bidder refuses to submit the revised offer within the prescribed time than it shall be treated as withdrawal of his tender and such bidder will not have any claim on his and deemed to have accepted that his bid is rejected.

13. **Currencies of Bid and Payment**

- 13.1. The price shall be quoted by the bidder entirely in Indian Rupees. All payments shall be made in Indian Rupees.

14. **Bid Validity and Bid Document Cost**

- 14.1. Bids shall remain valid for a period of **120 days** after the final deadline date for bid submission specified in Clause 17.
- 14.2. In exceptional circumstances, prior to expiry of the original time limit, the Executing Agency may request that the bidders may extend the period of validity for a specified additional period. The request and the bidders' responses shall be made in writing or by e-mail. A bidder may refuse the request without forfeiting his bid security. A bidder agreeing to the request will not be required or permitted to modify his bid, but will be required to extend the validity of his bid security for a period of the extension, and in compliance with Clause 15 in all respects.

- 14.3. The Bidder is required to pay a non-refundable fee as of Rs. 590/- towards cost of Bid Document through RTGS/ NEFT/ other online mode to the NHIDCL's designated bank account. Details of designated bank account are as under:

Sr.No.	Particulars	Details
1.	Name of Beneficiary	NHIDCL ESTABLISHMENT ACCOUNT
2.	Beneficiary Bank Account No.	76513070002321
3.	Beneficiary Bank Branch Name and Address	Canara Bank (erstwhile Syndicate Bank) Leh Branch, Tsaskan Complex near LIC Office, Distt. Public library Road, Leh-194101
4.	Beneficiary Bank Branch IFSC	CNRB0017651

The Bidder must upload Copy of the online payment receipt (UTR/ Reference No. / Transaction ID) towards payment of cost of Bid document.

- 14.4. Any bid not accompanied by Bid document fee/cost, shall be summarily rejected by the Executing Agency as **non-responsive**.

15. **Bid Security Details**

- 15.1. The Bidder is mandatorily required to pay an amount of Rs 14,19,600/- (2% of the estimated cost put to tender) towards the bid security through NEFT/RTGS/IMPS online mode only to the NHIDCL's designated bank account. Details of designated bank account are as under:

Sr.No.	Particulars	Details
1.	Name of Beneficiary	NHIDCL ESTABLISHMENT ACCOUNT
2.	Beneficiary Bank Account No.	76513070002321
3.	Beneficiary Bank Branch Name and Address	Canara Bank (erstwhile Syndicate Bank) Leh Branch, Tsaskan Complex near LIC Office, Distt. Public library Road, Leh-194101
4.	Beneficiary Bank Branch IFSC	CNRB0017651

- 15.2. Any bid not accompanied by Proof of Payment of Bid Security amount, shall be summarily rejected by the Executing Agency as **non-responsive**.

15.3. **The Bid Security will be forfeited:**

- a) if the Bidder withdraws the Bid after its submission during the period of Bid validity; **or**
- b) if the Bidder does not accept the correction of the bid price, pursuant to Clause 23; **or**
- c) in the case of a successful Bidder, if the Bidder fails within the specified time limit to
 - i. **Sign the Agreement;** and/or
 - ii. **Furnish the required Performance Security;** and/or
 - iii. **Submit the original documents as specified in Clause 11.2;**
 - iv. **Corrupt or Fraudulent Practices as specified in Contract Agreement.**

16. **Alternative Proposals by Bidders**

- 16.1. Bidder shall submit offers that fully comply with the requirement of the bidding document including conditions of contract, conditional offer or alternate offer will not be considered further in the process of tender evaluation and the bid will be declared **non-responsive**.

D. Submission of Bids

17. **Schedule for Submission of Bids**

- 17.1. Complete E-Bid to be uploaded on e-procurement portal before due date & time as mentioned in NIT. The bidders viz. those registered with the government agencies and not registered with the government agencies shall upload the scanned documents as enlisted under para 11.2. The bidders shall upload the technical bid and financial bid before the stipulated date and time as prescribed in NIT.
- 17.2. The Executing Agency may extend the deadline for submission of bids by issuing an amendment in accordance with Clause 9, in which case all rights and obligations of the Executing Agency and the bidders previously subject to the original deadline will then be subject to the new deadline.
- 17.3. The detailed schedule for submission of bid shall be, as given in NIT/Appendix to ITB.

18. Modification and Withdrawal of Bids

- 18.1. Bidders may modify or withdraw their e-bids before the deadline prescribed in NIT/Appendix to ITB.
- 18.2. No bid may be modified after the deadline for submission of Bids.
- 18.3. Withdrawal of a Bid between the deadline for submission of bids and the expiration of the original period of bid validity specified in Clause 14.1 above or as extended pursuant to Clause 14.2 shall result in the forfeiture of the Bid security pursuant to Clause 15.

E. Bid Opening and Evaluation

19. Bid Opening

- 19.1. Bid opening shall be carried out in two stages. Firstly, 'Technical Bid' of all the bids received shall be opened on the date and time mentioned in the NIT/Appendix to ITB. 'Financial Bid' of those bidders whose technical bid has been determined to be technically responsive shall be opened on the subsequent date through online process of e-tender, which will be notified to such bidders.
- 19.2. The Executing Agency will open the "Technical Bid" of all the bids received within due date and time, in the presence of the bidders/bidders' representatives who choose to attend at the time, date and place specified in the NIT. In the event of the specified date for the submission of bids being declared a holiday for the Executing Agency, the Bids will be opened at the appointed time and location on the next working day.
- 19.3. The Executing Agency at the opening of Technical Bid, will announce the bidders' names and such other details.
- 19.4. The Executing Agency will prepare minutes of the Bid opening, including the information disclosed to those present in accordance with Clause 19.1.
- 19.5. The bids accompanied with bid security declaration will be taken up for evaluation with respect to the Qualification Information and other information furnished in para 11.2
- 19.6. As soon as possible, the Evaluation Committee will finalize the list of technically responsive bidders whose financial bids are eligible for consideration.
- 19.7. The Executing Agency shall inform the bidders, whose technical bids are found technically responsive, of the date, time and place of opening of the financial bids. The technical responsiveness/non-responsiveness of the bidders will be uploaded in the CPP Portal and the financial bids will be opened after 7 days from the uploading of the results of the technical bids. The bidders so informed, or their representative, may attend the meeting of opening of financial bids.
- 19.8. The financial bids of only the technically responsive bidders will be opened. The technically responsive bidders' names, the Bid prices, the total amount of each bid and such other details as the Executing Agency may consider appropriate will be announced by the Executing Agency at the time of bid opening.
- 19.9. The Executing Agency shall prepare the minutes of the opening of the Financial Bids.

20. Process to be Confidential

- 20.1. Information relating to the examination, clarification, evaluation, and comparison of bids and recommendations for the award of a contract shall not be disclosed to bidders or any other persons not officially concerned with such process until the award to the successful Bidder has been announced. Any attempt by a Bidder to influence the Executing Agency's processing of bids or award decisions may result in the rejection of his Bid.

21. Clarification of Bids and Contacting the Executing Agency

- 21.1. To assist in the examination, evaluation, and comparison of Bids, the Executing Agency may, at his discretion, ask any Bidder for clarification. The request for clarification shall be given in writing or by email asking the tenderer to respond by a specified date, and also mentioning therein that, if the tenderer does not comply or respond by the date, his tender will be liable to be rejected. Depending on the outcome, such tenders are to be ignored or considered further. No change in prices or substance of the bid including specifications, shall be sought, offered or permitted. No post-bid clarification at the initiative of the bidder shall be entertained. The shortfall information/ documents should be sought only in case of historical documents which pre-existed at the time of the tender opening and which have not undergone change since then. So far as the submission of

documents is concerned with regard to qualification criteria, after submission of the tender, only related shortfall documents should be asked for and considered.

- 21.2. Subject to clause 21.1, no Bidder shall contact the Executing Agency on any matter relating to his bid from the time of the bid opening to the time the contract is awarded. If the Bidder wishes to bring additional information to the notice of the Executing Agency, he should do so in writing.
- 21.3. Any effort by the Bidder to influence the Executing Agency in the Executing Agency's bid evaluation, bid comparison or contract award decisions may result in the rejection of the Bidders' bid.

22. Examination of Bids and Determination of Responsiveness

- 22.1. During the detailed evaluation of "Technical Bids", the Executing Agency will determine whether each Bid
 - (a) meets the eligibility criteria defined in Clause 11.2;
 - (b) the required documents uploaded by the bidder are in order; and
 - (c) is substantially responsive to the requirements of the bidding documents. During the detailed evaluation of the "Financial Bids", the responsiveness of the bids will be further determined with respect to the remaining bid conditions, i.e., priced bill of quantities.

23. Correction of Errors.

- 23.1. Financial Bids determined to be technically responsive will be checked by the Executing Agency for any arithmetic errors.
- 23.2. The amount stated in the Financial Bid will be corrected by the Executing Agency for the correction of errors and shall be considered as binding upon the Bidder. If the Bidder does not accept the corrected amount, the Bid will be rejected, and action will be invoked on the bidder in accordance with Clause 15.1.

24. Evaluation and Comparison of Financial Bids.

- 24.1. The Executing Agency will evaluate and compare only the bids determined to be technically responsive in accordance with Clause 22.
- 24.2. In evaluating the bids, the Executing Agency will determine for each Bid the evaluated Bid price by adjusting the Bid price after making any correction for errors pursuant to Clause 23;
- 24.3. **If the Bid of the successful Bidder is unrealeastic or erratic** then an irrevocable and unconditional guarantee from a Bank should also be submitted in the same form given in Annexure-H an Additional Performance Security (**the "Additional Performance Security"**) for an amount calculated as under:
 - a) If the Bid Price offered by the Selected Bidder falls between 15% to 20% lower than Estimated Project Cost, then the Additional Performance Security shall be 10% of the Bid Price offered by the selected Bidder.
 - b) If the Bid Price offered by the Selected Bidder falls between 20% to 30% lower than Estimated Project Cost, then the Additional Performance Security shall be 20% of the Bid Price offered by the selected Bidder.
 - c) If the Bid Price offered by the Selected Bidder is lower than 30% of the Estimated Project Cost and which cannot be substantiated satisfactorily by the bidder, will be rejected as non-responsive.
 - d) This Additional Performance Security shall be treated as part of the Performance Security.
- 24.4. A bid, which is quoted unrealistically/freakishly low or high and which cannot be substantiated satisfactorily by the bidder, may be rejected as non-responsive.

F. Award of Contract.

25. Award Criteria.

- 25.1. Subject to Clause 27, the Executing Agency will award the Contract to the Bidder whose Bid has been determined, to be technically responsive in the technical bid and who has offered the lowest financial Bid price in the financial bid.

26. Executing Agency's Right to accept any Bid and to reject any or all Bids

- 26.1. Notwithstanding Clause 30, the Executing Agency reserves the right to accept or reject any Bid, and to cancel the bidding process and reject all bids, at any time prior to the award of Contract, without thereby incurring

any liability to the affected Bidder or bidders or any obligation to inform the affected Bidder or bidders of the grounds for the Executing Agency's action.

27. Notification of Award and Signing of Agreement.

- 27.1. The bidder who's Bid has been accepted will be notified of the award by the Executing Agency. The executing agency will issue the "Letter of Acceptance". The LOA will state the sum that the Executing Agency will pay to the Contractor in consideration of the execution, completion and maintenance of the works, by the Contractor as prescribed in the contract.
- 27.2. The letter of acceptance and subsequent issuance of letter of commencement will be a part of the contract document.
- 27.3. The successful bidder shall have to sign the contract agreement within 10 days of the issue of LOA by the executing agency. The executing agency will issue the letter of commencement on the date of the signing of the contract agreement which will be a part of agreement. The date of signing of the contract agreement will be treated as the date of commencement viz. the appointed date.

28. Performance Security.

- 28.1. **Within 60 (sixty) days** after signing of contract agreement, the successful Bidder shall deliver to the Executing Agency a Performance Security i.e. Five (5%) **percent of the Contract Price**, valid for the period of **60 days** beyond the stipulated date of completion. The Bid security amount of the successful bidder will be refunded after 30 days from the receipt of the conformation from the bank and on the request of the successful bidder.
- 28.2. The bidder shall also have to pay the additional performance security if any Bid in accordance with clause 24.3 of ITB along with the performance security for the same period. The extent rules applicable in the executing agency department are binding on the successful bidder.
- 28.3. SECTION-III

QUALIFICATION INFORMATION

QUALIFICATION INFORMATION

[The information is to be filled and submitted by the intending bidder along with their technical bid.]

1) For Individual Bidders (Applicable to contractors not registered with government dept.)

Constitution or legal status of Bidder

(Upload scanned copy of Original)

Details of Ownership: _____

Place of registration: _____

Principal place of business: _____

2) Power of attorney of signatory of Bid (Applicable to contractors not registered with government dept.)

(Upload scanned copy)

3) Work performed as prime contractor, work performed in the past as a nominated sub- contractor duly approved by Executing Agency will also be considered, provided further that all other qualification criteria are satisfied (in the same name) on works of a similar nature during the last **Five** years to qualify as per ITB.

(Applicable to contractors registered with government dept. and also contractors not registered with government dept.)

Project Name	Name of the Executing Agency*	Description of Work	Contract No.	Value Contract (Rs. Crore)	Date of issue of work order	Stipulated period completion	Actual date completion*	Remarks explain reasons for delay work Completed

** Attach certificate(s) from the minimum rank of Executive Engineer-in-Charge or equivalent*

Note: In case of nominated sub-contractor, a certificate from the minimum rank of Executive Engineer-in-Charge or equivalent of the Prime Executing Agency should be obtained from whom an approval for subcontractor has been obtained.

4) Litigation/Arbitration (Applicable to contractors registered with government dept. and also contractors not registered with government dept.)

Bidder shall submit Information regarding litigation or arbitration history during the last five years in which the Bidder is involved, the parties concerned, the disputed amount, and the matter in bidder Letter Head

Other Party /Department / Executing Agency	Cause of Dispute	Amount involved	Remarks showing Present Status

5) Bidders should provide the following affidavits/ undertakings as per formats enclosed hereafter: - (Applicable to contractors registered with government dept. and also contractors not registered with government dept.)

(i) Affidavit as per format given in Annexure- C

(ii) Undertaking as per format given in Annexure- D

FORM OF BANK GUARANTEE

[Performance Security/Additional Performance Security]

To

[National Highway and Infrastructure Development Corporation Limited]

[Yartsa House near Changspa Farm, Changspa, Leh, UT of Ladakh-194101]

WHEREAS _____ [name and address of Contractor] (hereafter called the "Contractor") has undertaken, in pursuance of Letter of Acceptance (LOA) No. Dated _____ for construction of [name of the Project] (hereinafter called the "Contract")

AND WHEREAS the Contract requires the Contractor to furnish an {Performance Security/ Additional Performance Security} for due and faithful performance of its obligations, under and in accordance with the Contract, during the {Construction Period/ Defects Liability Period and Maintenance Period} in a sum of Rs. _____ Cr. (Rupees _____ Crore) (the "**Guarantee Amount**"¹).

AND WHEREAS we, _____ through our branch at _____ (the "**Bank**") have agreed to furnish this Bank Guarantee (hereinafter called the "**Guarantee**") by way of Performance Security.

NOW, THEREFORE, the Bank hereby, unconditionally and irrevocably, guarantees and affirms as follows:

1. The Bank hereby unconditionally and irrevocably guarantees the due and faithful performance of the Contractor's obligations during the {Construction Period/ Defects Liability Period and Maintenance Period} under and in accordance with the Contract, and agrees and undertakes to pay to the Authority, upon its mere first written demand, and without any demur, reservation, recourse, contest or protest, and without any reference to the Contractor, such sum or sums up to an aggregate sum of the Guarantee Amount as the Authority shall claim, without the Authority being required to prove or to show grounds or reasons for its demand and/or for the sum specified therein.
2. A letter from the Authority, under the hand of an officer not below the rank of [Offg. Executive Director, of National Highways & Infrastructure Development Corporation Limited], that the Contractor has committed default in the due and faithful performance of all or any of its obligations under and in accordance with the Contract shall be conclusive, final and binding on the Bank. The Bank further agrees that the Authority shall be the sole judge as to whether the Contractor is in default in due and faithful performance of its obligations during and under the Contract and its decision that the Contractor is in default shall be final and binding on the Bank, notwithstanding any differences between the Authority and the Contractor, or any dispute between them pending before any court, tribunal, arbitrators or any other authority or body, or by the discharge of the Contractor for any reason whatsoever.
3. In order to give effect to this Guarantee, the Authority shall be entitled to act as if the Bank were the principal debtor and any change in the constitution of the Contractor and/or the Bank, whether by their absorption with any other body or corporation or otherwise, shall not in any way or manner affect the liability or obligation of the Bank under this Guarantee.
4. It shall not be necessary, and the Bank hereby waives any necessity, for the Authority to proceed against the Contractor before presenting to the Bank its demand under this Guarantee.
5. The Authority shall have the liberty, without affecting in any manner the liability of the Bank under this Guarantee, to vary at any time, the terms and conditions of the Contract or to extend the time or period for the compliance with, fulfillment and/ or performance of all or any of the obligations of the Contractor contained in the Contract or to postpone for any time, and from time to time, any of the rights and powers exercisable by the Authority against the Contractor, and either to enforce or forbear from enforcing any of the terms and conditions contained in the Contract and/or the securities available to the Authority, and the Bank shall not be released from its liability and obligation under these presents by any exercise by the Authority of the liberty with reference to the matters aforesaid or by reason of time being given to the Contractor or any other forbearance, indulgence, act or omission on the part of the Authority

¹ Guarantee Amount for Performance Security and Additional Performance Security shall be calculated as per Contract.

or of any other matter or thing whatsoever which under any law relating to sureties and guarantors would but for this provision have the effect of releasing the Bank from its liability and obligation under this Guarantee and the Bank hereby waives all of its rights under any such law.

6. This Guarantee is in addition to and not in substitution of any other guarantee or security now or which may hereafter be held by the Authority in respect of or relating to the Contract or for the fulfillment, compliance and/or performance of all or any of the obligations of the Contractor under the Contract.
7. Notwithstanding anything contained hereinbefore, the liability of the Bank under this Guarantee is restricted to the Guarantee Amount and this Guarantee will remain in force for the period specified in paragraph 8 below and unless a demand or claim in writing is made by the Authority on the Bank under this Guarantee all rights of the Authority under this Guarantee shall be forfeited and the Bank shall be relieved from its liabilities hereunder.
8. The Guarantee shall cease to be in force and effect on ****. Unless a demand or claim under this Guarantee is made in writing before expiry of the Guarantee, the Bank shall be discharged from its liabilities hereunder.
9. The Bank undertakes not to revoke this Guarantee during its currency, except with the previous express consent of the Authority in writing, and declares and warrants that it has the power to issue this Guarantee and the undersigned has full powers to do so on behalf of the Bank.
Any notice by way of request, demand or otherwise hereunder may be sent by post addressed to the Bank at its above referred branch, which shall be deemed to have been duly authorized to receive such notice and to effect payment thereof forthwith, and if sent by post it shall be deemed to have been given at the time when it ought to have been delivered in due course of post and in proving such notice, when given by post, it shall be sufficient to prove that the envelope containing the notice was posted and a certificate signed by an officer of the Authority that the envelope was so posted shall be conclusive.
10. This Guarantee shall come into force with immediate effect and shall remain in force and effect for up to the date specified in paragraph 8 above or until it is released earlier by the Authority pursuant to the provisions of the Contract.
11. This Guarantee is subject to the Uniform Rules for Demand Guarantees (URDG) 2010 Revision, ICC Publication No. 758, except that the supporting statement under Article 15 (a) is hereby excluded.
12. This guarantee shall also be operatable at our ICICI Branch at Leh, UT of Ladakh, from whom, confirmation regarding the issue of this guarantee or extension / renewal thereof shall be made available on demand. In the contingency of this guarantee being invoked and payment there-under claimed, the said branch shall accept such invocation letter and make payment of amounts so demanded under the said invocation.
13. The guarantor/bank hereby confirms that it is on the SFMS (Structural Finance Messaging System) platform & shall invariably send an advice of this Bank Guarantee to the designated bank of [MoRT&H/NHAI/ NHIDCL/State PWD/BRO], details of which is as under:

The Glow stud shall support a load of 13635 kg tested in accordance with ASTM D4280. The slope of retro-reflective surface shall be 35 +/- 5 degrees to base. The reflective panels on both sides with at least 12cm of reflective area up each side. The luminance intensity should be as per the specification and shall be tested as described in ASTM I: 809 as recommended in BS : 873 part 4 : 1973. The studs shall be fixed to the road surface using the adhesive conforming to IS, as per procedure recommended by the manufacturer complete and as per direction of Engineer-in-charge	each	40.00	193.85			7754

15	16.69	Providing and applying 2.5mm thick road marking strips (retro-reflective) of specified shade/colour using hot thermoplastic material by fully/semi automatic thermoplastic paint applicator machine fitted with profile shoe, glass beads dispenser, propane tank heater and profile shoe heater, driven by experienced operator on road surface including cost of material, labour, T&P, cleaning the road surface of all dirt, seals, oil, grease and foreign material etc. complete as per direction of Engineer-in-charge and accordance with applicable specifications.	sqm	90.00	604.50		54405
16	16.66	Manufacturing supplying and fixing retro reflective sign boards made up of 2mm thick aluminum sheet, face to be fully covered with high intensity encapsulated type heat activated retro reflective sheeting conforming to type-IV of ASTM-D-4956-01 in blue and silver white or other colour combination including subject matter, message (bi-lingual), symbols and borders etc. as per IRC : 67-2001, pasted on substrate by an adhesive backing which shall be activated by applying heat and pressure conforming to class -2 of ASTM-D-4956-01 and fixing the same with suitable sized aluminum alloy rivets @ 20cm c/c to back support frame of M.S. angle iron of size 25x25x3mm along with theft resistant measures mounted and fixed with 2 nos. M.S. angles of size 35x35x5mm to a vertical post made upto M.S. Tee section ISMT 50x50x6mm welded with base plate of size 100x100x5mm at the bottom end and including making holes in pipes, angle flats, providing and fixing M.S. message plate of required size steel work to be painted with two or more coats of synthetic enamel paint of required shade and of approved brand & manufacture over priming coat of zinc chromate yellow primer (vertical M.S.-Tee support to be painted in black and white colours). Backside of aluminum sheet to be painted with two or more coats of epoxy paint over and including appropriate priming coats including all leads and lifts etc. complete as per drawing, specification and direction of Engineer-in-charge.					
16.1	16.66.1	Mandatory/Regulatory sign boards of 900 mm diameter with part as length of 3750 mm	each	4.00	5795.50		23182
16.2	16.66.2	Cautionary/warning sign boards of equilateral triangular shape having each side of 900 mm support length of 3650mm.	each	4.00	4260.80		17043
17	16.67.1	Manufacturing supplying and fixing retro reflective overhead signage boards made up of 2mm thick aluminum sheet, face to be fully covered with high intensity and encapsulated lens type heat activated retro reflective sheeting conforming to type-III of ASTM-D-4956-01 as approved by Engineer-in-charge; letters, borders etc. as per IRC : 67-2001 in silver white with blue colour background and with high intensity grade, pasted on substrate by pressure sensitive adhesive backing which shall be activated by applying pressure conforming to class -II of ASTM-D-4956-01 and fixing the same to the plate of structural frame work by means of suitable sized aluminum alloys, rivets or bolts and nuts @ 300mm c/c all along the periphery as well as in two vertical rows along with theft resistant measures including the cost of painting with two or more coats of epoxy paint in grey colour on the back side of aluminum sheet including appropriate priming coat. The rate includes the cost of rounding off the corners, lowering down the structural frame work from the gantry, fixing and erecting the same in position all complete as per drawing, specification and direction of Engineer-in-charge (Structural frame work including M.S. plate to be provided separately. Rectangular area of the sheet only shall be measured for payment): Overhead informatory road signage	each	1.00	5651.25		5651
		Cross drain					
18	Non Schedule	Supply, transportation to site and laying of 300 mm dia mild steel pipe as directed by Engineer-in-charge (minimum thickness of pipe 4.50mm)	m	5.00	5500.00		27500
19	4.4.3	Providing and laying in position cement concrete of specified grade including curing but excluding the cost of centring and shuttering. All work upto plinth level with: 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20 mm nominal size)	cum	0.67	5877.50		3928
20	4.6.2	Centering and shuttering including strutting, propping etc. and removal of formwork for: Retaining wall, return walls, walls (any thickness) including attached pilasters buttresses, plinth and string course fillets, kerbs and steps etc.	sqm	5.10	573.85		2927

		Side Drain						
21	2.8	Earth work in excavation by manual means in trenches for foundations, drains, pipes, cables etc. (not exceeding 1.5 m in width) and for shafts, wells, cesspits and the like not exceeding 10 sqm on plan, including dressing of sides and ramming of bottoms lift upto 1.5 m, including getting out excavated earth and disposal of surplus excavated earth as directed: Rate for a lead upto 25 meters beyond 1meter from cutting edge

		ROAD WORK						
	16.81	Scarifying the existing bituminous road surface to a depth of 50mm and disposal of scarified material within all lifts and lead upto 1 km (by mechanical means)	sqm	900.00	4.90		4410	
1	16.1	Preparation of subgrade by excavating earth to an average of 22.5 cm depth, dressing to camber and consolidation with road roller of 8-12 tonne capacity including making good the undulation etc. and disposal of surplus earth upto 50 meters..	sqm	450.00	139.40		62730	
2	16.82.2	Construction of granular sub-base by providing close graded material conforming to specifications, mixing in a mechanical mix plant at OMC, carriage of mixed material by trippers to work site, for all leads & lifts, spreading in uniform layers of specified thickness with motor grader on prepared surface and comp[acting with vibratory power roller to achieve the desired density, complete as per specifications and directions of Engineer-in-Charge.						
		With material conforming to Grade-II (size range 53 mm to 0.075mm) having CBR Value-25	cum	33.75	1077.15		36354	
3	16.83	Providing, laying, spreading and compacting graded stone aggregate (size range 53 mm to 0.075 mm) to Wet Mix Macadam (WMM) specification including premixing the material with water at OMC in mechanical mix plant, carriage of mixed material by tipper to site, for all leads & lifts, laying in uniform layers with mechanical paver finisher in sub- base / base course on well prepared surface and compacting with vibratory roller of 8 to 10 tonne capacity to achieve the desired density, complete as per specifications and directions of Engineer-in-Charge.	cum	45.00	1041.50		46868	
4	Non Schedule	Providing and applying prime coat with bitumen emulsion Grade SS-1 complying with IS:8887 on prepared surface of granular base including cleaning of road surface with compressed air and spraying primer at the rate of 0.80kg/sqm using pressure distributor as per clause 502 of MoRTH specifications complete.						
		On WMM surface @0.80kg/sqm	sqm	450.00		53.47		24062
5	JKSoR derived Rate from 16.63.1	Providing and laying bituminous macadam using crushed stone aggregates of specified grading premixed with bituminous binder, transported to site by tippers, laid over a previously prepared surface with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers as per specifications to achieve the desired compaction and density, complete as per specifications and directions of Engineer-in-Charge.50 to 100mm average compacted thickness with bitumen of VG-10 @3.5% (percentage by weight of total mix) prepared in Batch Type Hot Mix Plant of 100-120 TPH capacity.	cum	22.50	5917.98		133155	
6	16.38.1	Providing and applying Tack Coat using hot straight run bitumen of grade-VG-10, including heating the bitumen, spraying the bitumen with mechanically operated spray unit fitted on bitumen boiler, cleaning and prepared the existing road surface as per specifications.						
		On bitumen surface @0.50 kg/sqm	sqm	1350.00	42.10		56835	

7	JKSoR derived Rate from 16.65.1	Providing and laying Bituminous concrete using crushed stone aggregates of specified grading, premixed with bituminous binder and filler, transporting the hot mix to work site by tippers, laying with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers to achieve the desired compaction and density as per specification, complete and as per directions of Engineer-in-Charge.: 40/50 mm compacted thickness with bitumen of grade VG-10@ 5.5% (percentage by weight of total mix) and lime filler @ 3% (percentage by weight of Aggregate) prepared in Batch Type Hot Mix Plant of 100-120 TPH capacity.	cum	67.50	9004.58	607809
8	16.48	Providing seal coat of premixed fine aggregate (passing 2.36mm and retained on 180 micron sieve) with bitumen using 128 kg of bitumen of grade VG-10 bitumen per cum of fine aggregate and 0.60 cum of fine aggregate per 100 sqm of road surface including rolling mad finishing with road all complete.	sqm	1350.00	78.15	105503
ROAD MARKINGS AND SIGN BOARDS						
9	16.58	Providing and fixing Glow studs of size 100x20mm made of heavy duty body shall be moulded ASA (Acrylic styrene Acrylonitrile) or HIP (High impact Polystyrene) or ABS having electronically welded micro-prismatic lens with abrasion resistant coating as approved by Engineer-in-charge. The Glow stud shall support a load of 13635 kg tested in accordance with ASTM D4280. The slope of retro-reflective surface shall be 35 +/- 5 degrees to base. The reflective panels on both sides with at least 12cm of reflective area up each side. The luminance intensity should be as per the specification and shall be tested as described in ASTM I: 809 as recommended in BS : 873 part 4 : 1973. The studs shall be fixed to the road surface using the adhesive conforming to IS, as per procedure recommended by the manufacturer complete and as per direction of Engineer-in-charge	each	7.00	193.85	1357
10	16.69	Providing and applying 2.5mm thick road marking strips (retro-reflective) of specified shade/colour using hot thermoplastic material by fully/semi automatic thermoplastic paint applicator machine fitted with profile shoe, glass beads dispenser, propane tank heater and profile shoe heater, driven by experienced operator on road surface including cost of material, labour, T&P, cleaning the road surface of all dirt, seals, oil, grease and foreign material etc. complete as per direction of Engineer-in-charge and accordance with applicable specifications.	sqm	15.00	604.50	9068

		Retaining Wall						
1	2.7.1	Earth work in bulk excavation by mechanical means (hydraulic excavator) over areas (exceeding 30 cm in depth, 1.5 m in width as well as 10m ² on plan) including disposal of excavated earth lead upto 50m and lift upto 1.5m, as directed by Engineer-in-Charge						
		All kinds of soil :	cum	100.00	188.75		18875	
2	2.11	Filling available excavated earth (excluding rock) in trenches, plinth, sides of foundations etc in layers not exceeding 20 cm in depth, consolidating each deposited layer by ramming and watering, lead upto 50m and lift upto 1.5 m.	cum	44.88	198.70		8917	
3	4.4.7	Providing and laying in position cement concrete of specified grade including curing but excluding the cost of centring and shuttering. All work upto plinth level with: 1:4:8 (1 cement : 4 coarse sand : 8 graded stone aggregate 40 mm nominal size)						
		Below Retaining Wall	cum	10.50	4419.85		46408	
4	4.5.3	Providing and laying cement concrete in retaining walls, return walls, walls (any thickness) including attached pilasters, columns, piers, abutments, pillars, posts, struts, buttresses, string or lacing courses, parapets, coping, bed blocks, anchors blocks, plain window sills, fillets etc upto floor V level, including curing but excluding the cost of centring, shuttering and finishing with. 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20 mm nominal size)						
		Coping over retaining wall	cum	4.50	7542.40		33941	
5	7.1.1	Random rubble masonry with hard stone in foundation and plinth including levelling up with cement concrete 1:6:12 (1 cement : 6 coarse sand : 12 graded stone aggregate 20mm nominal size) upto plinth level and curing complete with:						
		Cement mortar 1:6 (1 cement : 6 coarse sand).	cum	105.00	4435.25		465701	
6	4.6.2	Centering and shuttering including strutting, propping etc. and removal of formwork for: Retaining wall, return wall, walls (any thickness) including attached pilasters butteresses, plinth ans string coarse fillets, kerbs and steps etc.						
		PCC for retaining wall & for coping	sqm	40.00	573.85		22954	
		ROAD WORK						
7	16.1	Preparation of subgrade by excavating earth to an average of 22.5 cm depth, dressing to camber and consolidation with road roller of 8-12 tonne capacity including making good the undulation etc. and disposal of surplus earth upto 50 meters..	sqm	600.00	139.40		83640	

8	16.82.2	Construction of granular sub-base by providing close graded material conforming to specifications, mixing in a mechanical mix plant at OMC, carriage of mixed material by trippers to work site, for all leads & lifts, spreading in uniform layers of specified thickness with motor grader on prepared surface and compacting with vibratory power roller to achieve the desired density, complete as per specifications and directions of Engineer-in-Charge. (in Two Layer)					
		With material conforming to Grade-II (size range 53 mm to 0.075mm) having CBR Value-25	cum	45.00	1077.15		48472
9	16.83	Providing, laying, spreading and compacting graded stone aggregate (size range 53 mm to 0.075 mm) to Wet Mix Macadam (WMM) specification including premixing the material with water at OMC in mechanical mix plant, carriage of mixed material by tipper to site, for all leads & lifts, laying in uniform layers with mechanical paver finisher in sub- base / base course on well prepared surface and compacting with vibratory roller of 8 to 10 tonne capacity to achieve the desired density, complete as per specifications and directions of Engineer-in-Charge.	cum	60.00	1041.50		62490
10	Non Schedule	Providing and applying prime coat with bitumen emulsion Grade SS-1 complying with IS:8887 on prepared surface of granular base including cleaning of road surface with compressed air and spraying primer at the rate of 0.80kg/sqm using pressure distributor as per clause 502 of MoRTH specifications complete.					
		On WMM surface @0.80kg/sqm	sqm	600.00		53.47	32082
11	JKSoR derived Rate from 16.63.1	Providing and laying bituminous macadam using crushed stone aggregates of specified grading premixed with bituminous binder, transported to site by trippers, laid over a previously prepared surface with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers as per specifications to achieve the desired compaction and density, complete as per specifications and directions of Engineer-in-Charge.50 to 100mm average compacted thickness with bitumen of VG-10 @3.5% (percentage by weight of total mix) prepared in Batch Type Hot Mix Plant of 100-120 TPH capacity.	cum	30.00	5917.98		177539
12	16.38.2	Providing and applying Tack Coat using hot straight run bitumen of grade-VG-10, including heating the bitumen, spraying the bitumen with mechanically operated spray unit fitted on bitumen boiler, cleaning and prepared the existing road surface as per specifications.					
		On bitumen surface @0.50 kg/sqm	sqm	600.00	42.10		25260
13	JKSoR derived Rate from 16.65.1	Providing and laying Bituminous concrete using crushed stone aggregates of specified grading, premixed with bituminous binder and filler, transporting the hot mix to work site by tippers, laying with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers to achieve the desired compaction and density as per specification, complete and as per directions of Engineer-in-Charge.: 40 mm compacted thickness with bitumen of grade VG-10@ 5.5% (percentage by weight of total mix) and lime filler @ 3% (percentage by weight of Aggregate) prepared in Batch Type Hot Mix Plant of 100-120 TPH capacity.	cum	24.00	9004.58		216110

14	16.48	Providing seal coat of premixed fine aggregate (passing 2.36mm and retained on 180 micron sieve) with bitumen using 128 kg of bitumen of grade VG-10 bitumen per cum of fine aggregate and 0.60 cum of fine aggregate per 100 sqm of road surface including rolling mad finishing with road all complete.	sqm	600.00	78.15		46890
ROAD MARKINGS AND SIGN BOARDS							
15	16.58	Providing and fixing Glow studs of size 100x20mm made of heavy duty body shall be moulded ASA (Acrylic styrene Acryloretrite) or HIP (High impact Polystyrene) or ABS having electronically welded micro-prismatic lens with abrasion resistant coating as approved by Engineer-in-charge. The Glow stud shall support a load of 13635 kg tested in accordance with ASTM D4280. The slope of retro-reflective surface shall be 35 +/- 5 degrees to base. The reflective panels on both sides with at least 12cm of reflective area up each side. The luminance intensity should be as per the specification and shall be tested as described in ASTM I: 809 as recommended in BS : 873 part 4 : 1973. The studs shall be fixed to the road surface using the adhesive conforming to IS, as per procedure recommended by the manufacturer complete and as per direction of Engineer-in-charge	each	6.00	193.85		1163
16	16.69	Providing and applying 2.5mm thick road marking strips (retro-reflective) of specified shade/colour using hot thermoplastic material by fully/semi automatic thermoplastic paint applicator machine fitted with profile shoe, glass beads dispenser, propane tank heater and profile shoe heater, driven by experienced operator on road surface including cost of material, labour, T&P, cleaning the road surface of all dirt, seals, oil, grease and foreign material etc. complete as per direction of Engineer-in-charge and accordance with applicable specifications.	sqm	10.00	604.50		6045

		ROAD WORK						
1	16.81	Scarifying the existing bituminous road surface to a depth of 50mm and disposal of scarified material within all lifts and lead upto 1 km (by mechanical means)	sqm	2870.00	4.90		14063	
2	16.38.2	Providing and applying Tack Coat using hot straight run bitumen of grade-VG-10, including heating the bitumen, spraying the bitumen with mechanically operated spray unit fitted on bitumen boiler, cleaning and prepared the existing road surface as per specifications.						
		On bitumen surface @0.50 kg/sqm	sqm	2870.00	42.10		120827	
3	JKSoR derived Rate from 16.65.1	Providing and laying Bituminous concrete using crushed stone aggregates of specified grading, premixed with bituminous binder and filler, transporting the hot mix to work site by tippers, laying with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers to achieve the desired compaction and density as per specification, complete and as per directions of Engineer-in-Charge.: 40/50 mm compacted thickness with bitumen of grade VG-10@ 5.5% (percentage by weight of total mix) and lime filler @ 3% (percentage by weight of Aggregate) prepared in Batch Type Hot Mix Plant of 100-120 TPH capacity.	cum	143.50	9004.58		1292157	
4	16.48	Providing seal coat of premixed fine aggregate (passing 2.36mm and retained on 180 micron sieve) with bitumen using 128 kg of bitumen of grade VG-10 bitumen per cum of fine aggregate and 0.60 cum of fine aggregate per 100 sqm of road surface including rolling and finishing with road all complete.	sqm	2870.00	78.15		224291	
		ROAD MARKINGS AND SIGN BOARDS						
5	16.58	Providing and fixing Glow studs of size 100x20mm made of heavy duty body shall be moulded ASA (Acrylic styrene Acrylonitrile) or HIP (High impact Polystyrene) or ABS having electronically welded micro-prismatic lens with abrasion resistant coating as approved by Engineer-in-charge. The Glow stud shall support a load of 13635 kg tested in accordance with ASTM D4280. The slope of retro-reflective surface shall be 35 +/- 5 degrees to base. The reflective panels on both sides with at least 12cm of reflective area up each side. The luminance intensity should be as per the specification and shall be tested as described in ASTM I: 809 as recommended in BS : 873 part 4 : 1973. The studs shall be fixed to the road surface using the adhesive conforming to IS, as per procedure recommended by the manufacturer complete and as per direction of Engineer-in-charge	each	18.00	193.85		3489	
6	16.69	Providing and applying 2.5mm thick road marking strips (retro-reflective) of specified shade/colour using hot thermoplastic material by fully/semi automatic thermoplastic paint applicator machine fitted with profile shoe, glass beads dispenser, propane tank heater and profile shoe heater, driven by experienced operator on road surface including cost of material, labour, T&P, cleaning the road surface of all dirt, seals, oil, grease and foreign material etc. complete as per direction of Engineer-in-charge and accordance with applicable specifications.	sqm	21	604.50		12392	
7	16.66	Manufacturing supplying and fixing retro reflective sign boards made up of 2mm thick aluminum sheet, face to be fully covered with high intensity encapsulated type heat activated retro reflective sheeting conforming to type-IV of ASTM-D-4956-01 in blue and silver white or other colour combination including subject matter, message (bilingual), symbols and borders etc. as per IRC : 67-2001, pasted on substrate by an adhesive backing which shall be activated by applying heat and pressure conforming to class -2 of ASTM-D-4956-01 and fixing the same with suitable sized aluminum alloy rivets @ 20cm c/c to back support frame of M.S. angle iron of size 25x25x3mm along with theft resistant measures mounted and fixed with 2 nos. M.S. angles of size 35x35x6mm to a vertical post made upto M.S. Tee section ISMT 50x50x6mm welded with base plate of size 100x100x5mm at the bottom end and including making holes in pipes, angle flats, providing and fixing M.S. message plate of required size steel work to be painted with two or more coats of synthetic enamel paint of required shade and of approved brand & manufacture over priming coat of zinc chromate yellow primer (vertical M.S.-Tee support to be painted in black and white colours). Backside of aluminum sheet to be painted with two or more coats of epoxy paint over and including appropriate priming coats including all leads and lifts etc. complete as per drawing, specification and direction of Engineer-in-charge.						
7.1	16.66.1	Mandatory/Regulatory sign boards of 900 mm diameter with part as length of 3750 mm	each	1.00	5795.50		5796	
7.2	16.66.2	Cautionary/warning sign boards of equilateral triangular shape having each side of 900 mm support length of 3650mm.	each	1.00	4260.80		4261	

Cross drain						
8	Non Schedule	Supply, transportation to site and laying of 300 mm dia mild steel pipe as directed by Engineer-in-charge (minimum thickness of pipe 4.50mm)	m	7.00	5500	38500
9	4.4.3	Providing and laying in position cement concrete of specified grade including curing but excluding the cost of centring and shuttering. All work upto plinth level with: 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20 mm nominal size)	cum	1.00	5877.50	5878
10	4.6.2	Centering and shuttering including strutting, propping etc. and removal of formwork for: Retaining wall, return wall, walls (any thickness) including attached pilasters butteresses, plinth ans string coarse fillets, kerbs and steps etc.	sqm	7.14	573.85	4097
Side Drain						
11	2.8	Earth work in excavation by manual means in trenches for foundations, drains, pipes, cables etc. (not exceeding 1.5 m in width) and for shafts, wells, cesspits and the like not exceeding 10 sqm on plan, including dressing of sides and ramming of bottoms lift upto 1.5 m, including getting out excavated earth and disposal of surplus excavated earth as directed: Rate for a lead upto 25 meters beyond 1meter from cutting edge				
11.1	2.8.1.	All kinds of soil :	cum	184.45	524.40	96726
11.2	2.8.2.	Ordinary Rock	cum	59.50	922.35	54880
12	4.4.3	Providing and laying in position cement concrete of specified grade including curing but excluding the cost of centring and shuttering. All work upto plinth level with: 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20 mm nominal size)	cum	98.40	5877.50	579346
13	4.6.2	Centering and shuttering including strutting, propping etc. and removal of formwork for: Retaining wall, return wall, walls (any thickness) including attached pilasters butteresses, plinth ans string coarse fillets, kerbs and steps etc.	sqm	1066.00	573.85	611724

		ROAD WORK						
1	16.81	Scarifying the existing bituminous road surface to a depth of 50mm and disposal of scarified material within all lifts and lead upto 1 km (by mechanical means)	sqm	4750.00	4.90		23275	
2	16.1	Preparation of subgrade by excavating earth to an average of 22.5 cm depth, dressing to camber and consolidation with road roller of 8-12 tonne capacity including making good the undulation etc. and disposal of surplus earth upto 50 meters..	sqm	2375.00	139.40		331075	
3	16.82.2	Construction of granular sub-base by providing close graded material conforming to specifications, mixing in a mechanical mix plant at OMC, carriage of mixed material by trippers to work site, for all leads & lifts, spreading in uniform layers of specified thickness with motor grader on prepared surface and compacting with vibratory power roller to achieve the desired density, complete as per specifications and directions of Engineer-in-Charge.						
		With material conforming to Grade-II (size range 53 mm to 0.075mm) having CBR Value-25	cum	178.13	1077.15		191867	
4	16.83	Providing, laying, spreading and compacting graded stone aggregate (size range 53 mm to 0.075 mm) to Wet Mix Macadam (WMM) specification including premixing the material with water at OMC in mechanical mix plant, carriage of mixed material by tipper to site, for all leads & lifts, laying in uniform layers with mechanical paver finisher in sub- base / base course on well prepared surface and compacting with vibratory roller of 8 to 10 tonne capacity to achieve the desired density, complete as per specifications and directions of Engineer-in-Charge.	cum	237.50	1041.50		247356	
5	Non Schedule	Providing and applying prime coat with bitumen emulsion Grade SS-1 complying with IS:8887 on prepared surface of granular base including cleaning of road surface with compressed air and spraying primer at the rate of 0.80kg/sqm using pressure distributor as per clause 502 of MoRTH specifications complete.						
		On WMM surface @0.80kg/sqm	sqm	2375.00	53.47		126991	
6	JKSoR derived Rate from 16.63.1	Providing and laying bituminous macadam using crushed stone aggregates of specified grading premixed with bituminous binder, transported to site by trippers, laid over a previously prepared surface with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers as per specifications to achieve the desired compaction and density, complete as per specifications and directions of Engineer-in-Charge.50 to 100mm average compacted thickness with bitumen of VG-10 @3.5% (percentage by weight of total mix) prepared in Batch Type Hot Mix Plant of 100-120 TPH capacity.	cum	118.75	5917.98		702760	
7	16.38.2	Providing and applying Tack Coat using hot straight run bitumen of grade-VG-10, including heating the bitumen, spraying the bitumen with mechanically operated spray unit fitted on bitumen boiler, cleaning and prepared the existing road surface as per specifications.						
		On bitumen surface @0.50 kg/sqm	sqm	7125.00	42.10		299963	
8	JKSoR derived Rate from 16.65.1	Providing and laying Bituminous concrete using crushed stone aggregates of specified grading, premixed with bituminous binder and filler, transporting the hot mix to work site by tippers, laying with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers to achieve the desired compaction and density as per specification, complete and as per directions of Engineer-in-Charge.: 40/50 mm compacted thickness with bitumen of grade VG-10@ 5.5% (percentage by weight of total mix) and lime filler @ 3% (percentage by weight of Aggregate) prepared in Batch Type Hot Mix Plant of 100-120 TPH capacity.	cum	356.25	9004.58		3207882	

9	16.48	Providing seal coat of premixed fine aggregate (passing 2.36mm and retained on 180 micron sieve) with bitumen using 128 kg of bitumen of grade VG-10 bitumen per cum of fine aggregate and 0.60 cum of fine aggregate per 100 sqm of road surface including rolling mad finishing with road all complete.	sqm	7125.00	78.15		556819
		CROSS DRAIN					
10	Non Schedule	Supply, transportation to site and laying of 300 mm dia mild steel pipe as directed by Engineer-in-charge (minimum thickness of pipe 4.50mm)	m	4.75		5500.00	26125
11	4.4.3	Providing and laying in position cement concrete of specified grade including curing but excluding the cost of centring and shuttering. All work upto plinth level with: 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20 mm nominal size)	cum	0.63	5877.05		3731
12	4.6.2	Centering and shuttering including strutting, propping etc. and removal of formwork for: Retaining wall, return wall, walls (any thickness) including attached pilasters butteresses, plinth ans string coarse fillets, kerbs and steps etc.	sqm	4.85	573.85		2780
		ROAD MARKINGS AND SIGN BOARDS					
13	16.58	Providing and fixing Glow studs of size 100x20mm made of heavy duty body shall be moulded ASA (Acrylic styrene Acryloretrite) or HIP (High impact Polystyrene) or ABS having electronically welded micro-prismatic lens with abrasion resistant coating as approved by Engineer-in-charge. The Glow stud shall support a load of 13635 kg tested in accordance with ASTM D4280. The slope of retro-reflective surface shall be 35 +/- 5 degrees to base. The reflective panels on both sides with at least 12cm of reflective area up each side. The luminance intensity should be as per the specification and shall be tested as described in ASTM I: 809 as recommended in BS : 873 part 4 : 1973. The studs shall be fixed to the road surface using the adhesive conforming to IS, as per procedure recommended by the manufacturer complete and as per direction of Engineer-in-charge	each	33.00	193.85		6397
14	16.69	Providing and applying 2.5mm thick road marking strips (retro-reflective) of specified shade/colour using hot thermoplastic material by fully/semi automatic thermoplastic paint applicator machine fitted with profile shoe, glass beads dispenser, propane tank heater and profile shoe heater, driven by experienced operator on road surface including cost of material, labour, T&P, cleaning the road surface of all dirt, seals, oil, grease and foreign material etc. complete as per direction of Engineer-in-charge and accordance with applicable specifications.	sqm	75.00	604.50		45338
15	16.66	Manufacturing supplying and fixing retro reflective sign boards made up of 2mm thick aluminum sheet, face to be fully covered with high intensity encapsulated type heat activated retro reflective sheeting conforming to type-IV of ASTM-D-4956-01 in blue and silver white or other colour combination including subject matter, message (bi-lingual), symbols and borders etc. as per IRC : 67-2001, pasted on substrate by an adhesive backing which shall be activated by applying heat and pressure conforming to class -2 of ASTM-D-4956-01 and fixing the same with suitable sized aluminum alloy rivets @ 20cm c/c to back support frame of M.S. angle iron of size 25x25x3mm along with theft resistant measures mounted and fixed with 2 nos. M.S. angles of size 35x35x5mm to a vertical post made upto M.S. Tee section ISMT 50x50x6mm welded with base plate of size 100x100x5mm at the bottom end and including making holes in pipes, angle flats, providing and fixing M.S. message plate of required size steel work to be painted with two or more coats of synthetic enamel paint of required shade and of approved brand & manufacture over priming coat of zinc chromate yellow primer (vertical M.S.-Tee support to be painted in black and white colours). Backside of aluminum sheet to be painted with two or more coats of epoxy paint over and including appropriate priming coats including all leads and lifts etc. complete as per drawing, specification and direction of Engineer-in-charge.					
15.1	16.66.1	Mandatory/Regulatory sign boards of 900 mm diameter with part as length of 3750 mm	each	4.00	5795.50		23182
15.2	16.66.2	Cautionary/warning sign boards of equilateral triangular shape having each side of 900 mm support length of 3650mm.	each	4.00	4260.80		17043

16	16.67.1	Manufacturing supplying and fixing retro reflective overhead signage boards made up of 2mm thick aluminum sheet, face to be fully covered with high intensity and encapsulated lens type heat activated retro reflective sheeting conforming to type-III of ASTM-D-4956-01 as approved by Engineer-in-charge; letters, borders etc. as per IRC : 67-2001 in silver white with blue colour background and with high intensity grade, pasted on substrate by pressure sensitive adhesive backing which shall be activated by applying pressure conforming to class -II of ASTM-D-4956-01 and fixing the same to the plate of structural frame work by means of suitable sized aluminum alloys, rivets or bolts and nuts @ 300mm c/c all along the periphery as well as in two vertical rows along with theft resistant measures including the cost of painting with two or more coats of epoxy paint in grey colour on the back side of aluminum sheet including appropriate priming coat. The rate includes the cost of rounding off the corners, lowering down the structural frame work from the gantry, fixing and erecting the same in position all complete as per drawing, specification and direction of Engineer-in-charge (Structural frame work including M.S. plate to be provided separately. Rectangular area of the sheet only shall be measured for payment): Overhead informatory road signage	each	2.00	5651.25		11303
